New Blizzards Afflict Britain

LONDON, (CP)—The people of Britain—confronted by what the non-alarmist Times of London calls "the most disturbing statement ever made by a British government"—Saturday watched "the worst blizzard yet" of the worst winter of this century fall and awaited the signal to open battle to meet the government's increase-production-or-go-hungry challenge.

With the return of snowstorms and gales hampering transportation of coal to power stations and probably delaying further the industrial switch-on of electric power in all areas except the Midlands, Britons had time to digest the grim news contained in the economic white paper issued Friday.

Nub of the national problem is an increase of coal production to meet the demands of industry which must be thrown into higher gear to meet demands of an increased export program—the only means by which Britain can hope to import pre-war luxuries or even some of life's necessities.

The Times said of the economic white paper: "The account which it gives of this country's plight is frank and grave. The continued reluctance of the government to insist outright upon root-and-branch remedies which should follow inexorably from their analysis is at least as alarming."

What the "little people" of Britain face, in general, is this: All amenities must be sacrificed at personal expense to meet the national need which now is the immediate need of all.

There probably will be no increase in food rations, except possibly for a seasonal rise in milk supplies, although until a few weeks ago a more generous allotment of food had been expected. Clothing coupons will have to be stretched farther. Beer production has dropped during the power switch-off and may not rise again to the "pre-freeze" level.

Rationing of domestic consumption of gas and electricity—both produced from coal — is almost certain. Already shortages have forced an unofficial cut by half of the ration of coal and coke for household grate.

The building program — a crying need in blitzed Britain — may be slowed down with short timber supplies again delaying work.

Britons Saturday realized that years of the most stern austerity are the load of them and that no speedy return to normal conditions is even "around the corner," Reports indicated they realized, too, what will happen if the effort fails.

Expect Opposition To Time Change

Edmonton's application to the legislature for the right to establish daylight saving time in the city during the summer months may be in for a rough time.

It was claimed Saturday that farmer organizations are rallying their forces to make a joint and determined stand in opposition to the request. When Edmonton's proposed daylight amendment is scheduled for daylight saving time, go before legislature, representatives of farm organizations will be present to voice their protests, it is stated.

Nearly 20 members of the legislature are farmers, while many others carry on business in small towns, dependent on nearby farming communities.

An employe of the Bettenson Cartage Company, Brooks set out Thursday night to deliver a load of chalk. It is believed the truck he was driving became stuck in a large drift and that he suffered a heart attack while shovelling snow.

He was the father of five children and was well-known in the city where he had lived with his family for the past 2½ years.

Forecasts Influx Within Five Years

OTTAWA, (CP)—Revenue Minister McCann has predicted that "when we do embark on a definite long-term immigration policy and implement it, it will mean an influx into Canada of thousands, and that will probably be within the next five years."

The same medical man in the federal cabinet told the Ottawa Academy of Medicine Thursday night the government has not yet formulated a policy in regard to immigration, but I can say that the matter is receiving study and given the closest consideration."

No General Probe Of Rates Intended

OTTAWA (CP) — The inquiry into the railways' application for a 20 percent increase in freight rates will not evolve into a general investigation of Canada's railway rate structure, the board of transport commissioners indicated Friday after a renewed outbreak of argument over the scope of the current hearings.

The question of the scope of the inquiry came up Friday when Isaac Pitblado, chief railway counsel, took exception to the breadth of questions being put by Manitoba counsel Wilson McLean to C. E. Jefferson, C.P.R. freight traffic chief, in his third day on the witness stand.

J. J. Frawley, Alberta counsel, declared Alberta "certainly proposes to show what its rates are in comparison with other parts of Canada." It would not be asking now for an adjustment of what it claimed were higher rates in the west than in the east, but it would ask that there be no change higher.

Later, he added, it would ask for the removal of these "discriminations."

"We consider any evidence on the justice and reasonableness of rates admissible here," C. J. J. Ralston, maritimes counsel, declared.

"I don't think we are going to drift into any general freight rates inquiry," Chief Commissioner J. A. Cross observed.

Moving Derrick At Leduc Oil Well

Removal of the 156-foot derrick at Imperial Oil Limited No. 1 well at Leduc was started Friday and crews Saturday, officials of the company reported. The well has been a producer since January 29 and about 10 day ago and on Friday it produced 284 barrels. The surface rig will be dismantled and removed for use on another drilling site, Leduc No. 2 well of Imperial Oil was drilling at 2,020 feet Saturday.

More living quarters for oil workers will be provided in Leduc next week when the company brings in a small frame dwelling from Irma for this purpose. They are portable "cabooses" and will be hauled to Leduc on trucks Monday and Tuesday.

Renorta Saturday indicated that the McColl-Frontenac Oil Co. Ltd. well, eight miles west of Vermilion, was about the 5,000-foot level. It has a 136-foot derrick similar to the one on the No. 2 well of Imperial Oil Limited at Leduc. Holborna is about eight miles south of Wetaskiwin.

At Little America the sun set Friday night for the first time since last October, heralding the approach of the long Antarctic winter.

Coast Victim Dies Of Brutal Attack

VICTORIA, (CP)— Yuen Gin Ying, 36-year-old Chinese vegetable peddler, died in hospital Friday night. Yuen suffered a fractured skull when he was brutally beaten and robbed near his home two days ago.

Chinese leaders in Victoria said Friday they were discussing the possibility of sending a protest to the Chinese consul-general at Victoria, condemning the alleged lack of protection afforded Chinese in Victoria.

VANCOUVER, (CP) — Two Chinese were beaten by vicious thugs in separate attacks here.

Two bandits, one armed with "a large, black gun," were foiled in a holdup attempt of a grocery store but one of the bandits dragged the proprietor, K. Hong, 50, over the head before fleeing. Hong, victim of Thursday night's attack by two thugs twice within a year, was taken to hospital.

The second victim, an unidentified peddler, was attacked and robbed of $20 at the back of his truck while making a delivery. Evidently beaten savagely about the head, he was found lying unconscious behind his truck.

Box Car Squeeze Affecting Sawmills and Hog Producers

By The Canadian Press

Ontario hog producers and sawmill operators in British Columbia felt the box car squeeze Saturday. A shortage of 750,000 hogs in commitments to Britain was foreseen by Agriculture Minister Kennedy of Ontario if freight cars are not found to move feed grains from the west. British Columbia's viewed the possibility of 500 sawmills being forced to close, throwing 10,000 workers out of jobs.

With the railroads 13,000 cars short of requirements, top priority instructions to get to movement of grain to the ports to sustain the flow of breadstuffs to Britain and other hungry countries. But Vancouver, with ships losing $1,200 a day in earning power waiting in port for wheat cargoes, reported no relief in the dislocation of grain movements from Alberta over the Rockies. At Halifax and Saint John, wheat moved on a greatly reduced scale.

Sawmill operators in British Columbia said their plants would be forced to close almost immediately if box car shortages which they said had been placed on box cars moving to the interior, where the sawmills are located. The C.N.R. said later that the order had been modified to allow a number of cars for loading to points in western Canada, but it applied only to Vancouver, New Westminster and Vancouver Island areas and its effect on the sawmill situation was uncertain The C.P.R. said it had declared no embargo.

New Camera Gives Complete Snap In One Minute by Turn of Knob

NEW YORK, (AP)—A new kind of camera, that delivers a completed photo or snapshot in one minute by the turn of a knob, was announced to the Optical Society of America Friday by Edwin H. Land, of Boston, discoverer of Polaroid.

The camera can be carried by anyone. Land had two for demonstration, one the portrait type and the other a size frequently carried by news photographers. He said the process could be adapted to any camera and probably to making movies.

The picture that emerges is fully finished and of the same quality as photographs that are developed and printed by dark room processes. But this one works in daylight.

The film used is the ordinary silver-bromide. The secret is in a tiny capsule of chemicals that produces all the ordinary developing and fixing steps right in the camera. Actually it shortcuts some of them.

After the picture is snapped, the film rolls onto a piece of special photographic paper, so that the two are face to face, in contact, with the capsule or pod between them. The pod breaks and spreads its contents between film and photographic paper.

Report 21 Killed In Chinese Crash

SHANGHAI, (AP)—Central news agency reported Saturday that 21 persons were killed Friday in the crash of a Chinese Air Force transport plane.

The plane was flying from Sichang to Chungking in a region where a number of fatal plane crashes have occurred recently. The news agency said the crash was blamed on ice forming on the wings.

Probe Cuba Moves Of Ex-Vice King

HAVANA, (AP)—Cuban secret police sought leads Saturday in the activities of Charles Lucky Luciano, deported New York vice overlord, in an investigation ordered after the United States cut off narcotics shipments to Cuba on the ground that Luciano's presence in Cuba might lead to "diversion of the drugs."

Interior Minister Alfredo Hequeno told Secret Police Chief Benito Herrera to determine how Luciano, who was deported from the U.S. to Italy, had entered Cuba and how he was occupying himself.

Secret police said they knew Luciano was in Cuba and that he had been seen frequently at the race track in Havana, though it had not been learned where he was staying.

Luciano, former top man of New York vice rackets, was sent to prison in 1936 for 30 to 50 years. Last year he received a pardon from Governor Thomas E. Dewey, and was sent back to his native Italy.

Immediate Increases Up to 25% Indicated

OTTAWA, (CP)—Reports circulated Saturday that the government would take action shortly to increase commercial rentals, possibly by as much as 25 percent, but that domestic rentals would remain unchanged at least until May 1.

These reports, unconfirmed in official quarters, said the upward adjustment in commercial rentals would be on a sliding scale. This may become effective at the month-end.

Saturday's reports coincided with recent indications that the government already has printed, or is in the process of printing, forms to be made out by landlords in application for increased rentals if and when they are permitted.

The government is known to feel that there are many cases of injustice in the field of rentals, but particularly among those owners with pre-war homes and premises, but has been unable to find a formula under which an equitable adjustment could be made.

But, even if the government does take some steps to increase rentals generally, it was not considered likely the vital eviction control will be removed.

One informant said that Mr. King's regular physician had called in a specialist for consultation.

The informant continued: "But he is really much better now. His temperature has dropped to normal, and all the danger is passed."

This source added that the 72-year-old prime minister, although he still is shod, resumed work Friday and signed a number of letters sent to his home from his offices.

1947 Sugar Ration Stated Not Known

By John Bird

OTTAWA.—It's much too early to think reckoning in terms of sugar, if any, Canadians will get in the coming year, according to officials of the prices board.

Commenting on a Washington U.S. and Canada, one official said: "The story is unintelligible and in its important particulars, wrong."

Here are the facts: at present, under allocation by the International Emergency Food council, Canada receives the same allotment per capita as U.S. and Britain. If that allotment remains under allocation from the council—as Canada has received no word to the contrary—then Canada will continue to receive as much per capita as the others.

If international control is to remain, it is impossible at this juncture, with the new sugar crop not yet fully grown, to estimate at all precisely what each country will get. Canada's domestic control officials said will have to rely on British and U.S. sugar, and officials don't know what Canada will get.

Officials discounted the Washington report that the U.S. would get 17 pounds more sugar per capita and that Canada's allotment would be slightly more than 75 percent of pre-war consumption.

Party to Support Churchill In Assailing India Moves

Protest Presence Russians in China

NANKING, (AP)— A delegation of 400 representatives of seven north China provinces asked the government Friday to protest against Russian troops staying in Chinese territory.

The delegation urged the government to demand the immediate withdrawal of Russian troops from the port of Dairen, and to insist on the return of all industrial equipment removed from Manchuria.

The petitioners prepared if the Manchurian question could not be solved that it be presented to the United Nations.

LONDON, (Reuters) — Nearly 200 Conservatives will stand behind Opposition Leader Winston Churchill in assailing the government's India moves in a commons debate this week after next.

The cabinet's decisions are expected to have the support of the vast majority of the government's parliamentary strength of nearly 400 members.

The Liberal party, with only a handful of representatives in parliament, is split, nevertheless, represents several million votes. It may side with the government.

Conservatives may decide to drive the government to a vote — possibly on the vote of censure which Churchill suggested some months ago, and which he has since been doubting in reserve.

The Conservatives will make their chief target of criticism the government's decision to put a date on Britain's departure from India. The question of the change of viceroys may be another important talking point.

Nehru 'Never Doubted' Lord Wavell's Sincerity

NEW DELHI, (AP) — Pandit Jawaharlal Nehru, chief minister of India's interim government and leader of the Hindu-dominated Congress party, said Saturday he "never doubted Lord Wavell's sincerity and desire to serve India's interests."

His statement was issued with regard to what he called an "unjust report, carried by the Associated Press, that the relations with Wavell, who is being replaced as viceroy by Admiral Lord Mountbatten.

That the report by Reuters referred quoted a New Delhi source as saying that Congress saying the Congress party leader had been known to consider Wavell as an obstacle to settlement of the Moslem League difference with the Moslem league, and added that the replacement was regarded as a move to placate Nehru.

"What I am concerned about especially, however, are the references to Lord Wavell and to Lord Mountbatten," Nehru's statement said. "There have been differences of opinion during the past months, but I have never doubted Lord Wavell's sincerity and desire to serve India's interests. He carried a heavy burden and responsibility which were held regard for him and I shall be sorry in many ways to part with him."

They are on their way to Port Elizabeth, chief port of the eastern province.

At every stop wayside station and level crossing people were out in strength, cheering and waving.

During the journey the King was in wireless touch with London, hearing the latest developments on the Indian and fuel situations.

Before the train resumed its journey Saturday the royal family received a call to thank farmer A. P. Vandermerwe, on whose land the train halted overnight. They met him and afterwards had lunch with the farmer, his wife and daughters, and chatted with them for about 15 minutes.

LONDON, (Reuters) — The Royal tour of South Africa was condemned by Communists from all parts of the world in the 19th national congress of the Communist party in London Saturday.

In a "Year of Aye" they passed an emergency resolution strongly condemning what it called "the infringement of civil liberties by the South African government and its persecution of the human rights of millions of Africans, Indians and colored people."

Pastor Is Accused In $150,000 Blaze

MILWAUKEE, (AP) — Counsel Harry J. Steuer Saturday described as a "terrific mistake" the arrest of Rev. Dr. John Lewis, 72, pastor of one of Milwaukee's oldest and largest churches, on a charge of arson in connection with a $150,000 fire in the church where he has been pastor for nearly 12 years.

The pastor and the warrant was issued upon complaint of William Rossiter, deputy state fire marshal, who alleged that Dr. Lewis purchased two quarts of kerosene on Jan. 25, two days before the church fire.

The prosecutor said the minister told police he had purchased a gallon of kerosene but he has denied setting fire to the 76-year-old church.

Farmers Income Down in Prairies

By H. R. Hardy

OTTAWA.—Cash income from the sale of farm products in 1946 for the prairie provinces totalled $854,-900,000, according to the dominion bureau of statistics.

Saskatchewan heads the prairie list with cash income from farm products amounting to $398,800,000. Alberta ranks next with income of $284,600,000. Manitoba receipts amounted to $171,500,000.

Comparative figures for Alberta were: 1944, $338,100,000; 1945, $289,800,000.

The income for the three provinces is considerably less than in 1944, when the total was $1,058,-600,000. In 1945 the total was $859,-300,000. Thus it is evident a progressive shrinking of farm income is indicated.

Jews Release Text Of Plan Rejection

LONDON, (Reuters)—The Jewish Agency Friday released the text of the statement presented to the British government Feb. 13 rejecting the final British attempt to solve the Palestine problem.

Dealing with the plan, which preceded the British decision to refer the whole issue to the United Nations on the ground that it was incompatible with the basic purposes of the mandate, the agency said the proposed continuance of restrictions on land purchase would virtually close Galilee and the Negeb desert area to new Jewish settlement.

The constitutional proposals whereby Palestine would become an independent unitary state after five years are thrown out on the ground that this would condemn the Jewish population to the position of a permanent minority after reaching a level of between 700,000 and 800,000.

The memorandum contrasts the British proposal for an immigration of 4,000 a month with the recommendation of the Anglo-American committee of inquiry for the admission of 100,000 within a year.

It then sets out the agency's three alternative suggestions—a free democratic state with a Jewish majority after unrestricted immigration; execution of the British mandate true to its letter and spirit, or resumption of discussions on the basis of creating a Jewish state in an "adequate" area of Palestine.

H. S. A. Johnson, store manager, acted as host at the gathering which was held to honor Clement Digney, display manager for the last 15 years, and Frank C. Hooper, manager of the men's clothing department for 20 years.

Signifying 35 years' service, Mr. Digney was presented with a gold bar to add to his gold medal, together with a cheque. Mr. Hooper was given his 20-year medal, accompanied by a cheque. The presentations were made by Mr. Johnson.

TOO EASY

There was a railway cutting beside the football ground. It was one of those matches in which the referee was far too easy. Foul after foul the game degenerated. Then, after one particularly flagrant offence, a train in the cutting let forth a piercing blast on its whistle.

A spectator shouted to the referee: "Lumme, ref, even the engine-driver saw that one!"

House Debates Redistribution As 179 Members Play Hookey

By Richard Sanburn

OTTAWA — Before Friday night's normal three-hour session of the commons was half finished, the discussion switched suddenly to the explosive topic of redistribution of the membership each province will henceforth have representing it in Ottawa.

But if individual voters from each of the 242 constituencies now represented in the house had walked into the public galleries to hear how their elected members felt about this measure, 179 of those voters would have listened—and looked—in vain for their member.

At 10:40 p.m. there were 54 members seated in the house, and 179 were not in their seats. Government members numbered 30, and the combined opposition totalled 24. The house adjourned at 10:45 p.m., 15 minutes ahead of schedule.

Leaders Annoyed

All members on both sides of the house, especially Liberals and Progressive Conservatives, during the past week have been roundly paddled by their leaders about absenteeism and addiction to a truly long week-end.

The redistribution debate did not get very far.

George Black (Prog. Cons., Yukon) protested violently about the government proposal to bring the Mackenzie territory into his already large constituency. Yukon now covers 207,076 square miles, and the proposed addition would increase that area by 527,490 square miles, giving a total area of 734,566 square miles or eight times as big as all of Britain.

Mr. Black suggested extending the northern boundaries of British Columbia and the prairie provinces.

Hon. C. G. Power, former member of the King cabinet, opposed a suggestion made by Rev. Stanley Knowles of Winnipeg that the redistribution be done by an "impartial committee." Mr. Knowles moved this as an amendment, and it is still before the house.

Attacks Bonuses

Shaking a warning finger almost under the nose of Canada's paunchy little postmaster-general, John Diefenbaker, the Progressive-Conservatives' expert on the time-honored art of "needling," earlier Friday expressed fears that if Postmaster-General Bertrand were given the authority to award supplementary bonuses to rural mail carriers, in the event of an election there would be a lot of "playing around" with public funds.

Mr. Diefenbaker asked why bonuses already paid were not referred to in the public accounts.

The minister says today there are about 8,000 contracts that he will be able to play around with," said Mr. Diefenbaker. "If this be an election year we know the sort of playing around that will be done with those money of the people of this country if left under the control of those ministers."

He declared that the postmaster-general was asking for blank authority to spend more than $800,000 on bonuses to rural mail carriers. Until the house had obtained information on bonuses already paid it was not in a position to argue the necessity of the bill.

Thomas Reid, (Lib., New Westminster), said he felt every member was in agreement that payment of these bonus was a splendid thing. It had been granted to every rural mail carrier in his constituency. The reason some mail carriers in other parts of the country did not get the bonus was because there were fewer persons on their routes.

Mexico has purchased 1,500 new all-steel box cars in the United States.

The Means Test

Mayor Harry D. Ainlay has pointed out that the means test which is applied to applicants for the old age pension is the only one made to administer than the amount saved by its application.

This is quite true. But it is only one of the reasons why this offensive and stupid system should be abolished. It should be abolished, primarily, because it requires every old age pensioner to be a pauper before he or she can successfully claim what actually amounts to a dividend on a life-long investment in Canada.

No person should get, or should expect to get, something for nothing. For nothing-for-nothing doctrine belongs to the realm of social fantasy.

But surely the man or the woman who for 60 or 65 years has contributed to the development and progress of Canada is not asking for something for nothing when he or she demands freedom from fear and worry in the declining years of life. The old age pension is something earned, and usually earned with a good deal of sweat and toil.

That is why the means test is an affront to every pensioner. If the pensions were made payable to every person no such offence would be given to anyone. For no more offence would there be paid as a matter of right, not of favor or benevolence. Those who did not need the money would pay it back in their income taxes, and the public treasury would be out nothing.

While the means test is costly to apply thoroughly, it accomplishes nothing to warrant the expense. It should be done away with, and old pensions paid as routine recognition of a universal right to all who reach the qualifying age.

The "Speech"

The Speech from the Throne promises a session of the provincial legislature of unusual interest and practical importance. And also of unusual unanimity, so far as the program is disclosed. There is not much in the Speech to fight about.

Abolition of the three-mill Social Service Tax will provoke no controversy. This levy has always produced more complaint than revenue. Its disappearance will be welcomed, even if proportion to the amount that the tax added to the bill of the householder in town and country. For while the tax was collected in the first place the possibility that the rate might be increased—if three mills, why not ten some time when the legislature was in a spending mood? The menace goes out with the tax.

Free medical and hospital care for persons and their dependents who are in receipt of old age pension, widows' allowances and blind pensions will be approved by everyone. These pensions are paid as subsistence allowances only. They are insufficiently generous to cover medical and hospital bills.

Increased grants for education and highway-building are obviously needed. The scarcity of teachers proves the case for more pay, and the state of the roads emphasizes the other. It is to be hoped that in both cases the increases will be in proportion to the needs, so far as revenue will permit.

Free space in Edmonton and Calgary for Red Cross blood donor clinics will not cost much, while the service looms large in the minds of all. So the public is beyond computation in money.

"Establishment of an animal pathology and nutritional laboratory at Vegreville to aid agriculture" is a bit technical for the lay reader. Presumably it means some sort of testing place where farm animals will be used as "guinea pigs" to find how they should be fed and cared for. There can be no difference of opinion as to the wisdom of pushing research along this line, in a province where the prosperity is reported to be largely upon the production of high quality stock by economic methods.

The extension of veterinary services through the rural areas of the province is so closely associated with the comfort of farm families and the modernizing of farm practice as to deserve encouragement. The Speech does not indicate how far the extension is to be promoted, but the object is not questionable. It is to be hoped the plans proposed will be realized, and without delay.

Revision of the course of studies in elementary schools is another technical matter. The nature and trend of the revision will determine its reception by the public, and by members of the legislature. The advisability of continuous adjustment of school courses to the times is apparent.

A strong effort to attract tourists to Alberta, and to encourage Albertans to explore the scenic wonders of their own province, is need no "selling" to the legislature or the public. So long as it is well directed to produce results, the better. Alberta can do with a lot more tourist spendings and give the visiting public a lot more scenery.

The Speech is never a dependable forecast of sessional proceedings as a whole, nor of the subjects which will engage the attention of the members. The present one is free of controversial questions, and if the legislature did little more than carry these proposals into effect it would contribute to the progress of the province.

It is fair to assume that the liberalized proposals for expenditure are the outcome in measure of the financial agreement made by the province with Ottawa. If so, the agreement will of course come up for ratification at this session. That it will be ratified there is every reason to suppose. This prospect is strengthened by the contents of the Speech.

Russia Agrees

Mr. Gromyko at last got around to saying that Russia will permit an international authority to supervise and manage atomic energy plants in the Soviet Union.

That seems to remove the one big obstacle to agreement, and clear the way for establishing international control of atomic energy. It is not known that any other country objects to surrendering this much sovereignty in the interests of general security.

Why this concession was so long withheld is not explained. The fact probably is that Premier Stalin and his colleagues wanted time to study the subject and to make sure that Russia would not be put at a disadvantage in any conceivable circumstances. The men at Moscow are nothing if not "wise."

If that was the reason for delay, they are not to be blamed for taking time out, unnecessary as it seems to those who understand that no where in the world is there information or desire to plot hostility to Russia. Any hole-in-corner country armed with atomic bombs could do prodigious damage to a neighbor state not prepared to retaliate.

The surrender of autonomy involved in submitting to such international inspection is real, and serious in proportion to the possible consequences of any area being exempted. If humanity is to be safeguarded there must be no fraction of the globe into which the control authority will not extend. Either every country and every part of every country must be open to control officials and agents or no agreement can give security anywhere.

Responsibility Is Real

At New York a mother was found guilty of a crime committed by her under-age son. The police unearthed an old "blue" law which the legislature has not forgotten to repeal and which makes the parent responsible for the conduct of a minor—even to the point of being punished for a juvenile's offences against the law.

That the mother will be sent to jail for the boy's crime is not likely. That the boy will be put in prison is also unlikely, unless he is sent to an institution where attention is given to correcting the particular bad tendencies he has shown. The times have changed since the law in question was passed.

But perhaps the unearthing of this old enactment will not be without a salutary effect. It is a sharp reminder that in the world of days parental responsibility was a real thing. Maybe the Puritans carried it too far, but they were clear on the point that the parent should answer for the misdeeds of his or her child.

"They didn't divide the blame among the parents and the school teacher, the police, the minister and the state, and so dilute responsibilities to the point of giving parents an excuse for letting their children run wild.

It will do no harm if this statutory voice from the past gets wide publicity, and candid attention. We are in some danger at present of regarding children as coming out of nowhere into here, with nobody in particular accountable for their coming or for what they do after they arrive. The results are what might be expected.

The Lenten Season

Last Wednesday was the first day of Lent, which, as the season observed, is varying degrees of emphasis and devotion, by every communion in Christendom.

Lent is preeminently a season of repentance, during which the individual is required to examine his conscience and endeavor to eradicate from his behavior and his thoughts those habits of mind and heart which enable him worthily to receive the inestimable benefits of the Crucifixion and Resurrection of our Lord.

It is very proper, of course, that such a season should be given the commemoration of the Divine Act which earned eternal life for all who believe. The road of repentance is obviously the only road to Calvary. And the Lenten season is an eminent wholesome observance because it reduces to a practical formula that discipline of mind and spirit which churchmen and philosophers alike have agreed is the essential prelude to satisfactory Living.

For the Lenten principle is grounded in material necessity as well as in religious fact.

Pride and vanity are the ruling social offences, just as they are chief among the cardinal sins.

And thinkers everywhere cherish the opinion that social progress consists of imperfection, without a periodic checking of pride and vanity, there can be no improvement.

Thus if only from the philosophic and ethical standpoint, the Lenten observance is essential to ordered living. But, at that point, the philosophic and the religious views converge after a fashion. Christian living is ordered living. Indeed, except to those who are content to put their faith to the fallible and doubtful supremacy of the intellect, Christian living is the only form of ordered living.

The Lenten season symbolizes the only possible approach to the benefactions of Christ's Sacrifice, which is the admission that all men sin and that all men need to be forgiven.

It is a reminder that it is the sinner, not the saint, that Christ died on the Cross to save.

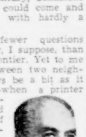
THE THRILL THAT COMES ONCE IN A LIFETIME -:- by Webster

Snugtown, U.S.A.

BY ELMORE PHILPOTT

Somewhere in USA-you can't excuse the border into the States these days as easily as you could when I was a boy. In those early years of this century, Canadians and Americans could come and go either way with hardly a question asked.

There are fewer questions asked even now, I suppose, than at any other frontier. Yet to me the barrier between two neighbors will always be a bit as it was described—when a printer suddenly looked up at me and with a flash of unexpected passion that made me blink, declared:



PHILPOTT

"It's an insult to God. God made all the world one. We have cut even this comfort to pieces!"

He smiled then, half abashed at his vehemence and lapsed back into his own job. I had never thought of him as a deep thinker.

* * *

YOU STILL FIND what is best in the United States in what torments it. That is why I think the statesmen made a mistake to put their United Nations headquarters in New York. It just isn't the real USA. It's Babylon.

When I think of the real USA, I think of a smaller city in Ohio —or I think of a manufacturing town in the state of Washington. Let's call it Snugtown.

There is a friendly feeling in Snugtown. If you talk to the boss in the factory, or in his local bank, you could close your eyes and imagine that you were talking to a shop steward in the CIO union in the same plant. I do not mean, of course, on the things that matter, but on the a professional way, but on the vastly greater areas of human affairs on which they agree.

Here is the 1947 difference between a small town and a big city in the USA. Where the boss and his employes can and do still call each other by first names—naturally, without a shade of pose—then you've got something. You've got a society all about Charlie's wife's operation, and Charlie's son and the boss' son fighting together—yes, you've got something that is the missing link in the great impersonal corporation with an absentee boss and workers who hardly know what the plant makes—outside of profits.

* * *

SEVERAL THINGS strike the Canadian observer as different. For instance, the schools. They are more like Canada's than they are in Canada. But it is in the practicality of the courses that the difference is most noticeable. They are more deliberately geared to usefulness. Out of about 400 high school students in Snugtown, no less than 175 take Spanish.

Spanish indeed is the only modern language taught, other than English.

You also find more women in small businesses of their own. Many of the women in business in the US are not compelled to be there—that is, it is not "from necessity" as our youngsters might say.

* * *

YOU CAN'T GET an American to talk rationally in terms of party politics any more than you can get a Canadian to be completely rational or emotional about religion comes into the picture.

But you can't sit around and talk after the meeting with the members—say of a small town service club, or with those of a trade union—without sensing a deep uncertainty in the US mind.

The new facts of life have destroyed that sense of geographical isolation which was the fundamental fact in US psychology. Pearl Harbor thinking. The American people are rather painfully aware that they have become the mainstay of whatever stability, peace and prosperity we are going to find around the next corner.

They feel a lot like Shakespeare's character, "the world is out of joint. O cursed plight, that ever I was born to set it right."

* * *

INTENSELY PROUD of their industrial "know how," they are comparatively lost in the field of positive world policy.

Some of this will surely come through themselves and, I think, lead the whole world Chamber of Commerce. The United States are a very great and good people. You may not see that at first glance in the Navy. But where the Americans are within sight of green fields, clean streams and well-kept roads, you get a great sense of reassurance.

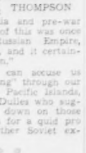
They Cry "Peace"

By DOROTHY THOMPSON

The Moscow "Peace Conference" is being prepared for in the worst possible atmosphere.

Dean Acheson, assistant secretary of state, having been reluctantly forced into a yes or no statement at a congressional hearing, admitted that the Soviet Union was "expansionist and aggressive." He was heckled in Moscow for being "rude, slanderous and hostile." On top of that, John Foster Dulles accused of "plotting war" in his speech of January 17.

I do not see why the USSR herself slandered by being called "expansionist." It is a matter of fact that the USSR has expanded to absorb the three Baltic states, a chunk of Finland, 46,000 square miles of Poland, and part of Czechoslovakia and pre-war Rumania. Some of this was once held by the Russian Empire, some never was, and it certainly is "expansion."



THOMPSON

The Russians can accuse us of also "expanding" through our bases. We do not annex, but it was Mr. Dulles who suggested we pipe down on those claims in favor of a quid pro quo against further Soviet expansion.

* * *

THE USSR WOULD be in a better moral position if its nearest allies did not constantly tell their nationals what the USSR would do to them if it got them to do. In Poland, the argument of the Communist-led bloc for the permanent retention of quid pro quo powers in that complying with Soviet terms is a condition of "democracy."

Last Sunday, the president of Czechoslovakia said that "because of the presence of the Russians on the other side of the Carpathians, all plans for Central European Federation must be abandoned." Czechoslovakia state cannot endure another crisis, for . . . Slovakia would not be an independent state, but a province of Russia.

ACTUALLY, Mr. Dulles — in advocating federalizing Germany and Austria, by forcing local self-government and integrating German's industrial life with that of Western Europe — was following the policy of creating a viable Europe which would permit American and Soviet withdrawal. This would make for the easiest conditions between the US and the USSR.

But it is characteristic that no proposals are, any longer, discussed in the "conference" be held in this atmosphere?

* * *

THE PROSPECT of international tinder box over Europe seems to this columnist the least of dangers. We do not believe that any Western European combination of them, will try again to attack and invade the Soviet Union from the peninsula of Europe. We do not believe that Stalin or Hitler, holding all Europe as bases, is enough. The Soviet Union does not think he either, as Stalin made abundantly clear in the Werth interview some time ago. There, he pointed out that two great wars merely with atomic bombs—with which opinion General Marshall agrees—will not think the yelling is only political war-of-nerves.

* * *

THE DANGER in the immediate future is the social collapse of all Europe and the emergence of Communist dictatorships and dictatorships in short, for an anarchy which will finally sink European civilization and reverberate shatteringly on our own.

Europe is in a much worse way than our Pollyannas want to believe. Its young people wish only to flee it. The rapid spread of "existentialism"—stripped of its original religious faith—among the intellectuals indicates only the bleak affirmation of nihilism. The most sensitive Europeans today believe in nothing—neither in Fascism, Democracy, Communism, or Christianity. They have seen and experienced all things, and all appear as vanity.

* * *

FEW AMERICANS in Europe, whether in official positions or as correspondents, have a really profound knowledge of Europe to discern the sickness of body and soul which is spreading like a cancer.

Despite the fact that history holds many examples of epidemic collective insanity, we cannot believe such things simply and preferably, to the superficial view that the torture and gas-chambers of the Nazis were how an outgrowth of "Prussian militarism."

Prussian militarism is dissolved, and not the torture chambers, penal camps, firing squads, slave brigades, forced migrations—nor the grim prisons from which issue human howls. The conditions are not over. We shall have new ones, when the occupying armies withdraw—in Germany, for instance, and in Italy. Where on the Eurasian continent is there the point of calm? We wish we thought in the Soviet Union. But the cries issuing from there have the sick shrillness of hysteria. We have had better kill a corps of psychiatrists to the Moscow delegation.

Not by Stages

Lethbridge Herald

One of the weaknesses of socialism is that it's a top-down management of a million details of the people's lives and affairs from the start at the top don't always know.

For instance, an Alberta story of meat rationing says that a rancher received a letter from his ration board demanding to know why he had several hundred pounds of beef in storage.

The rancher answered: "It was necessary to kill the whole steer at one time."

Tourist Business

BY HARPER PROWSE, MWA

It is hoped that American tourists will flock across the border into Canada this year bringing millions of dollars with them, and we all hope that Alberta will get a goodly share of those dollars. For the tourist business has become a big business. And every cent the tourist spends makes work for our people, and provides a market for the products of our farms and our factories.

The immediate sale of our products to tourists is not the most important part of this business, however. The important factor is that it is a most major source of American exchange, so necessary to enable us to pay for the many goods which Canada must import from the United States. For every dollar which Americans spend in Canada eventually will be used to pay for American goods bought by Canadians.

* * *

CANADIAN IMPORTS from the United States are so heavy that our big problem has always been to get the American dollars we need to pay for them. It is because in the past we have usually imported more goods from the United States than we have exported to the United States that for years before and during the war our dollar remained at a discount in American funds.

Now, just as American tourists provide Canada with American money to buy American goods, so Canadians who spend their holidays in the United States cancel out the value of that exchange to this country. Thus, if we are to get the full benefit of the tourist business we must try to persuade our own people to spend their holidays in Canada. And from a provincial point of view Alberta should encourage Albertans to spend their holidays, and their spare cash, in this province.

* * *

AFTER ALL, we have in this province, in our National Parks and our provincial parks, scenery which is unequalled anywhere else in the world and recreational facilities which are the envy of all parts of this continent.

So, while we are busy developing these parks as bait to attract American tourists and the all-important American exchange with which they pay their bills, we should also be developing these playgrounds with an eye to providing adequate recreational facilities for our own people. This is a fact which seems to have escaped the minds of a great many people in responsible positions up to the present.

* * *

THE TOURIST business is important because it provides us with a market for the goods and services we are able to produce and supply. But we can only be paid for these by buying goods and services which are produced in the countries from which the tourists come. On the other hand if we can encourage our people to holiday here we will be able to consume a great deal of those goods and services ourselves—and it will produce work for our own people supplying them.

The Bulletin's Readers Say:

PLANNED CONSUMPTION

Editor, Bulletin—Those who are constantly advocating "planned production" should devote a little thought to the consideration of "planned consumption" and see if that is not what they really need. If consumption was planned we need this would automatically finance production, and at the same time avoid the planning of buying-power into the consumers hands, where it should be. The sole reason for production is to meet the demands of consumption and therefore the consumer should be the first solution of demanding what is needed in the line of production. This can best be done by educating the consumer with sufficient purchasing power so that he can buy what he really desires. In this way production would be planned and financed by the consumer, and since we are all consumers the productive power of the nation would thus be brought into line with the wishes of the overwhelming majority. It made to serve him and there would be true democracy in action, and we would then have economic democracy, as well as political democracy.

Every dollar spent by the consumers would be tantamount to a vote registered for what they wished to have produced, and it would be a thoroughly effective one because the manufacturers who made the goods most pleasing and satisfactory to the consumer would get the most votes (dollars). In other words, he would have the best paying business—and would be entitled to do so, as long as he produced the goods most suitable to the consumers wishes.

The amount of money distributed to the consumers would be estimated so as to equal the total selling prices of all consumption goods, or their imported equivalent, and the existing wages would be supplemented partly by a dividend and partly by a reduced retail price.

What a bank is, in addition to being a repository for people's savings, is a factory which manufactures financial credit.

If we regard the national economy as a pair of old fashioned scales then these must be kept in balance. On one side we would place the financial credit manufactured by the banks and on the other side we should have the "real credit" or production of the country. It should be the function of a credit commission through the banks, to maintain equality of purchasing power with the people's production, and the volume of purchasing power is much easier to control than the volume of actual production. If the money on the one side does not contain sufficient purchasing power to equal the price tags of the goods on the other side, then enough must be added to make up the deficiency, and the additional purchasing power must be distributed in an equitable manner among all those people who get less than a minimum income or who are unemployed, in the form of a national dividend.

Sufficient additional purchasing power should be added to producers' wages to make up what they lack so that the total income of all the people paid to the total selling prices of the goods which have been produced. In this way the planning of buying of finance into the consumers' hands.

Major and Minor Notes

By John Oliver

Forceful reminder to perspective contestants that the 40th annual competition of the Alberta Musical Festival association is rapidly approaching is the fact that the English adjudicators are the vocal and instrumental classes are over the Atlantic, and are scheduled to dock Tuesday at New York aboard the world's largest liner, Queen Elizabeth. The adjudicators are Edgar Stanley Roper, Cornelius Fisher and Michael Head. The first two will adjudicate at the festival here, while Mr. Head, one of Britain's leading contemporary song writers, will visit other festivals. Actually the Alberta music festival is scheduled for May 19 to 24, but must be in not later than April 20. That is little enough time in which to prepare, and then decide whether to continue with the necessary study to perfection in order to put in practice to one's self and the works being performed. The old saying: that "art is long and time fleeting" certainly holds good, because even with diligent application to the task in hand, the competitions will be here soon enough.

John Oliver

After landing Messrs Roper, Fisher and Head will visit various musicians and places of interest in New York. They will remain there until the following Sunday when they will leave for Toronto on the first lap of a 10,000 mile trip to the Pacific coast and back. They will sail for England June 10 on the Queen Elizabeth.

Among places to be visited in addition to this city and Toronto are Ottawa, Montreal, Stratford, Shrewsbury, Winnipeg, Saskatoon, Regina, Vernon and Vancouver.

Messrs Roper and Fisher will adjudicate in all vocal and instrumental classes here, while Prof. Robert Orchard of the University of Alberta will sit in judgment over the speech arts and drama entries.

Interest in the festival is reported widespread. Entries already are flowing in and it is estimated that the total may reach 1,000. "Taking the size of choirs, choral societies, school choruses and other groups... it is likely the aggregate number of participants will be close to 3,000. A few weeks ago in this column moved highlights in Mr. Fisher's career were given. Perhaps some information on Mr. Roper might be delightful reading.

Mr. Roper, who was born in 1878, was educated at Westminster Abbey and Corpus Christi college, Cambridge. He was an organ scholar in 1899 and in 1900 was Steward of Rannoch Scholar. He obtains and his bachelor of arts degree in 1901; his bachelor of music degree in 1902 and his master of arts degree in 1903. From 1917 to 1923 he was assistant organist at Westminster Abbey and from 1923 to 1939 was organist at St. Margaret's, Westminster. Later he was appointed organist, composer and choirmaster at His Majesty's Chapels Royal. In 1942 he was appointed a Commander of the Order of St. John. In the same year he was elected president of the Royal College of Organists. From 1922 to 1923 he conducted the Old Madrigal society. He was admitted as a Member of the Victorian Order in 1930 and was made a Companion of the same order in 1943.

He is a member of the Athanaeum and English Speaking Union clubs. For several years he was an examiner in music in London, Manchester and Birmingham universities, and from 1928 to 1944 was principal of Trinity College of Music, London. In 1943 he was appointed dean of the music faculty, London university.

When the final concert of the current season's Celebrity Series, sponsored by the Women's Musical club is given on March 7, one of the most famous choral organizations in North America will be heard, namely, the Fisk Jubilee Singers. Prominent in the field of Negro ensemble singing and direct descendants of the original exponents of Negro spirituals, this group has become an international musical tradition for 70 years the Fisk Jubilee Singers have won acclaim on both sides of the Atlantic. Composed entirely of Fisk university graduates, the present group is the third generation to carry on the work of spreading appreciation of spirituals.

Fisk university, at Nashville, Tennessee, was established in 1865 on the site of an old slave market. It is one of the oldest and best known institutions for the higher education of the Negro people. It developed from a preparatory school to a liberal arts college of high standing. The first group of Fisk Jubilee Singers, all members of whom were born in slavery, and named from the passage in the Book of Leviticus, proclaiming a "year of jubilee," went to Europe in 1873. There, concerts were given before audiences that included Queen Victoria, the King and Queen of Holland, Prime Minister Gladstone, the Earl of Shaftesbury and many other dignitaries. From that tour was earned sufficient money to build a dormitory at Fisk.

The present organization has met with widespread success. Among its appearances have been concerts with the Boston, Chicago and Los Angeles Symphony orchestras. There have been many radio concerts and records made for the British Broadcasting Corporation.

$350,000,000 Relief Urged by President

WASHINGTON, (AP)—President Truman asked congress Friday to vote $350,000,000 for relief aid to people of liberated countries.

The president noted full scale supply operations by UNRRA are drawing to an close, and said:

"On humanitarian grounds, and in the light of our own self-interest as well, we cannot not leave the task unfinished. We cannot abandon the peoples still in need."

The president recommended future United States relief assistance be given directly rather than through an international organization, and that be administered under United States control.

Forecasts Approval Portal Suit Ban

WASHINGTON, (AP)—A bill declaring "null and void" the $5,785,000,000 country-wide accumulation of portal pay claims—and barring any in the future—was approved Thursday by a senate judiciary subcommittee.

It may go before the senate next week.

The full committee immediately went into executive session to consider the proposal. Chairman Alexander Wiley forecast approval by Monday. Republican leaders have stamped the issue "urgent" and given it top priority.

Robot Builds Radios Three per Minute

LONDON, (Reuters)—A new machine for mass production of radio sets by a Nobel process which will revolutionize the British radio industry was demonstrated here by its inventor, 60-year-old John Bargrove of London, before British scientists and foreign embassy officials.

Rene, short for electronic circuit, as the robot is called, turns out one receiver every 20 seconds at a cost so greatly reduced that if anything goes wrong, it will be cheaper to buy a new one than to repair the old one, Bargrove said.

The electric "brain" checks itself, and if anything goes wrong with it the process is automatically stopped.

NO BRIBES

As the train pulled up at the wayside station the guard noticed smoke pouring out of a compartment labelled "No Smoking." Opening the door, he eyed the six gaily-looking passengers seated inside.

"Gentlemen," he remarked, "there are two rules on this line which are repeatedly broken. First, that smoking is forbidden in carriages not set aside for that purpose. Second, that the company's servants may not accept bribes. You have already broken one of these rules."

FIRE AND WINDSTORM

SPORTS

HAROLD DEAN, Sports Editor

PAYING THEIR FIFTH AND FINAL visit to Edmonton under the regular league schedule, Saskatoon Elks will be the opposition for Flyers at the arena tonight. And Flyers with a four-point lead no doubt will be battling to protect their second-place position in the circuit standing.

So far this year Riley Mullen's club has turned back Saskatoon in all four of their appearances in Edmonton, but the Elks on the other hand have marked up four wins out of five starts on their home ice against Flyers.

Edmonton still has four games to play, two at home, (Saskatoon tonight and Calgary Monday) and a pair away, one of the latter being at Calgary on Feb. 28, and the other at Lethbridge on March 1. A win in any one of these four games means no worse than a tie with Leafs, but they'll no doubt be shooting the works against Saskatoon tonight.

Stanley at Centre Tonight

MANAGER MULLEN STATED LAST NIGHT that in an effort to take full advantage of the current player situation, a further switch in lineups will be made for tonight.

Don Stanley will pivot a line with Elmer Kreller operating on right wing and Bing Merluk on left, while Billy Maher is to centre for another string with Alex Pringle at right and either Cy Thomas or Johnny Black on the left boards.

Maher has a badly cut foot, but Ab Newsome will be the extra forward and four defencemen — "Pug" Young, Gordie Watt, Bob Salsinger and Bim Barker are to be used.

Filey also says that Kreller would like to operate on right wing and he feels that using Stanley at centre will assure getting full value from using the former Varsity play-maker.

Denies Club Dissention

MULLEN, INCIDENTLY SPIKED RUMORS as to lack of harmony amongst the Flyers. "I just wish some of these fellow's who are shouting without knowing the facts could see how well they get along. They're just as anxious to win as the rest of us and I believe the boys have been giving everything they have. Their co-operation has been wonderful.

Personally I'm happy Regina is not in these playoffs—they skated like demons and as between Saskatoon and Regina, I'll say Caps right now are the better club."

A regular routine meeting of the Exhibition Association hockey committee was held Friday afternoon—just exactly the same procedure as has been in vogue all season following completion of road trips.

Freddy Smitten may be back with the Flyers before the season is finished after all. Latest information is that the stubborn wrist fracture is coming along nicely and the chances that the elusive left-winger may be back before long now appear very bright.

Dazzling Ski Jumping Exhibition Promised

One of the highlights of the Edmonton winter carnival week, Feb. 24 to March 1, will be the spectacular ski jumping exhibition under floodlights and a dazzling display of fireworks Tuesday night at the Connor's road hill commencing at 8:30 o'clock.

Many top notch skiers from out of town will be here for this outstanding event, and as far as is known here, Edmonton will be the only place in Canada to have such a show. This is the fifth annual ski carnival sponsored by the Edmonton Ski club and it promises to be the best of the five.

AS IN PREVIOUS years, the skiers will carry fireworks in their hands and tied to their body and skis while coming down the big jump.

One of the highlights will be five skiers coming down the big scaffold in quick order and leaping through a large flaming hoop suspended in the air 40 feet from the end of the jump.

Three skiers on skis will add to the entertainment with a few spills.

The Edmonton Ski club has already obtained the services of several well-known skiers for the event and there is a possibility two outstanding skiers from Vancouver will also be here.

SOME OF THOSE who will be taking part are:

Gunnar Aanene, northern Alberta ski jumping champ; Pete Bjartnason, Jens Servold, Ole Hovind, Clarence Servold, Don Mitchell, Allan Burrows, John Maland, Melvin Sjolie, Irwin Servold, Harold Servold, Glen Bergh, Ole Hovind, Doug. Bumstead, Byron Buchanan, George Pedersen, Ronald Stote, Eugene Proudlool, Fred Mitchell, Stimpson.

Greenberg Signs With Pittsburgh

NEW YORK, Feb. 22.—(AP)—Storm warnings were hung up for National League pitchers yesterday. Hank Greenberg agreed to simple their deliveries this year.

THE FAMED Detroit slugger, whose surprise late in 1946 with Pittsburgh Pirates resulted in his Feb. 9 statement that he was considering retiring as an active player, signed a one-year contract yesterday for an undisclosed amount. However, John W. Galbreath, Pirates president and co-owner of the Bucs, who engineered the signing, said the sum was "substantial." Hank received last year' Greenberg was reported to have received $25,000 from the Tigers in 1946.

Galbreath said he had spent three days convincing the 36-year-old star that he owed it to the Pittsburgh fans to play for them this year, and also to clear up the rumor that Hank would be prejudiced against playing for Pittsburgh or in the National League.

HE SAID THE salary terms never had been questioned. Hank merely had announced he was considering quitting because he did not want to start anew in a different environment at his age.

However, he never had quit "positively," and Pirate officials never gave up on their attempts to lure him into the fold.

Winnipeg Skater Takes Big Lead

WINNIPEG, Feb. 22 — (CP) — Larry Johnston of Winnipeg stole the limelight in the Manitoba speed skating championships Friday, taking to pile up a 20-point lead over Dennis Gaffen also of Winnipeg, and 40-point margin over four United States skaters in the intermediate boys division.

One of his victims was the U. S. national champion, Dick Carlson of Minneapolis. Johnston's time in the mile was 2:31, 7 1-5 seconds better than he set in the Canadian championships at Sudbury, Ont., earlier this month.

JOHNNY WERKET and Ken Bartholomew of Minneapolis were tied for the senior leadership with 30 points and Betty Mitchell and Eileen Whalley of Winnipeg, the former North American Canadian and Ten Thousand Lakes champion, were even in the senior women.

The meet continues today.

Junior Series Opens Tomorrow

First game of the best of five City Junior Hockey League series between South Side and Canadians will be played on Sunday morning commencing at 11 o'clock at the Varsity rink.

Sunday Side recently eliminated Edmonton Athletic Club two straight in the semi-finals. Second game of the final will be on Wednesday at the Varsity rink.

Tie for Second

PRAGUE, Feb. 22 — (AP) — The United States amateur hockey team got back into a tie for second place in the world championships Friday by defeating Poland, 5-2.

The Americans, Austria and Czechoslovakia all have eight points each with Sweden leading at nine points.

Austria defeated Romania 12-1 Friday.

Janiro Triumphs As Beau Jack's Knee Gives Out

NEW YORK, Feb. 22 (CP)—Tony Janiro registered a technical knockout over Beau Jack, former lightweight boxing champion, in the fourth round of a scheduled 10-rounder at Madison Square Garden Friday night when the Beau's injured knee gave out on him. Janiro weighed 147¾; Jack 141.

Jack, fighting for the first time since he broke his knee cap in an accident, was forced to quit at 1:03 of the fourth round when the weakened leg buckled under him.

IT WAS A terrific battle until that time. Janiro, brilliant young boxer from Youngstown, O., showed a slight edge over the route, but Jack, the lively Augusta, Ga., scrapper, was in there all the way.

Just before the fight ended, Jack unleashed a swirling attack on Janiro, and as the Ohio fighter covered up Jack apparently banged his bad knee. The Georgian went down and was attempting to get to his feet again when referee Eddie Margolis called time out.

THE DEAD game Beau pleaded to be allowed to continue and Josephs finally let the fight go on. But Jack obviously was finished. A few seconds later, as Janiro attacked, the Beau went down again, this time for keeps.

Dr. Vincent Nardiello, state athletic commission physician, examined the former Georgia shoeshine boy in his corner after the bout was stopped and said the left kneecap "is loose." Beau Jack was carried from the ring on a stretcher as a near-sellout crowd milled around the ringside.

Leaf Pee-Wees Close Schedule

Maple Leaf Athletic Club Pee-Wee Hockey league schedule went wound up Friday night when McGregor Products shut out W. W. Arcade 4-0 and Army and Navy Cubs beat Flyers 5-1 in a pair of games at the Eastwood rink.

Bill Manson with two, Roger Frost and Bob Townsend with one for McGregor in their game. Vic Molody with two and Rodney Lindberg tallied the Cub's goals while Johnny Young drove home the only Flyer marker.

The Cubs win last night enabled them to wind up on top of the league standing with a one-point edge over the McGregor Products.

Flyers and Arcades, who finished in a fourth-place tie, will play a sudden death game on the right to enter the semi-finals, which open on Monday with McGregor Products meeting Army and Navy Cubs at the 120th avenue rink, and the Cubs meeting the Arcade-Flyer winner on the Eastwood rink. Both games start at 8 o'clock.

Scoring champion of the league was Norbert Peterson of McGregor Products with five shutouts to his credit.

Rossdale Club Tops Speed-Skating Meet

Babs Kasting Posts Record In 440 Event

Led by Babs Kasting, Edmonton Community League (North Side) carnival queen candidate who won all three senior womens' events and set the only record of the night, Rossdale club took top honors in the Alberta indoor speed skating championships held at the Arena Friday night.

The Rossdale skaters combined their efforts to collect a total 480 points and nose out the Westmount Club, the winners only real rival. Westmount compiled a total of 360.

BABS KASTING, whose only opposition was Pat Gunn of the Elmwood Club, won all three senior women's competitions fairly easy and in so doing established an Alberta record in the 440. Her time was 45 and three-fifths seconds, one and two-fifths faster than the old mark of 47 seconds, set in 1941 by Anna Ware, another Edmonton skater.

Three other Rossdale skaters also turned in sparkling efforts. Peggy Craven matched Babs Kasting's feat of winning three straight, although she never set a record, in the intermediate girls' division by defeating Dorothy McLeod, Rossdale, who won the Dominion title, in all three races.

MYRNA McLEOD took both the midget girls' events for the Rossdale club and Bill Good picked up a nice share of points for the winning team by taking top place in two races and coming second in another in the junior boys competitions.

BILL KORTEZ, St. Joseph's High entry, turned in a dazzling performance in the intermediate boys' class to romp home first in three races. His hopes of winning the mile and copping four events went sailing away when he fell during the course of the mile race. Billy Hobbins was top performer for the Westmount Club, winning both midget boys' races.

THE MEN'S two mile race provided a thrilling finish to the long list of events when Lloyd Johnson, skating under the Central colors, overtook Bill Kasting on the stretch to win by a nose. His time was just 10 and two-fifths seconds off the provincial record. Senior men's events in other classes were: Henrietta McKay, Saskatoon (junior girls); Jack Kinnear, Westmount and Connell Kelly, Westmount (juvenile boys).

A little variety was added to the card by a hobby players' race, which was won by Bob Gray, Canadian Junior defenceman. Pete Wright of the Edmonton Athletic Club was second. Others taking part were: Clem McCloskey, EAC; John Sofiak, Canadians; Bob Goodacre, Canadians and Roy Forrest, Maple Leafs.

Bears Maul Huskies 8-2 in Cup Contest

Second Win in Series

Alberta's battling Golden Bears strengthened their grip on the Halpenny trophy, emblematic of the Western Canada Intercollegiate hockey championship when they bowled over the Saskatchewan Huskies 8-2 for their second straight victory in defence of the coveted crown. Manitoba was their first victim.

The contest, which was played at the University rink last night, produced about everything in the hockey book from smooth combination to a good variety of "shinny."

SUPERIOR FINISH around the net by the Albertans appeared to be the chief difference between the clubs. The Golden Bears displayed finesse when it came to polishing off their plays and the hard-working Huskies were checked so closely behind the Alberta blue line that they couldn't seem to get organized for a clean-cut shot.

It was a hard-checking contest from start to finish, with the Albertans, particularly, breaking up well-organized plays with tenacious checking.

LAST NIGHT'S victory placed the Bears in an enviable spot in the current series. Manitoba has only scored one victory in three games and Saskatchewan has a similar record, while the Albertans have copped two straight in as many contests. The same two teams clash today at 2 o'clock.

Bill Dimock, Scotty Gourlay, Vic Kuzyk, Ken Cox and Harry Hobbs were the leading Alberta marksmen, with Rags Jonasson and Bill Jenkins finding the net for the visitors.

ALBERTA FORGED into a 2-1 lead in the first period with Dimock counting from a pileup around the opposing net and Gourlay finding an opening in a general melee around the goal mouth after a nifty three-man passing play which also included Hobbs and Kuzyk. Jonasson fired Saskatchewan's marker after taking a pass from Smandych.

After Gourlay slammed in Kuzyk's passout from behind the net to open the middle frame, the Bears came through with a picture play. Cox carried the puck inside the blue line, passed to Dimock, and the latter, who was in the clear, pulled the goalie out of position and planted the rubber in the rigging.

SECONDS LATER Cox combined with Dockery and Dimock for the last tally of the period.

Saskatchewan kept pressing for goals in the third and was rewarded when Parker intercepted an Alberta pass, whipped the puck over to Jenkins and the Huskie star planted it behind Jefferies on an angle drive.

Cox and Cameron teamed up for the sixth Alberta counter while Spice of the Huskies was resting in the penalty box and then Kuzyk hammered in Gourlay's rebound. Harry Hobbs finished off the scoring, Kuzyk passed to Gourlay and the latter got a weak shot away. Hobbs was parked at the goal-mouth and helped it along.

FIRST PERIOD: 1—Alberta, Dimock, 14:20. 2—Alberta, Gourlay (Hobbs-Kuzyk) 15:34. 3—Saskatchewan, Jonasson (Smandych) 17:44. Penalties, Ingram and Kortez.

SECOND PERIOD: 4—Alberta, Gourlay (Kuzyk) 7:54; 5—Alberta, Dimock (Cox-Dockery) 12:04. 6—Alberta, Cox (Dockery-Dimock) 12:40. Penalties — Kuzyk, Spice, Sproule.

THIRD PERIOD: 7—Saskatchewan, Jenkins (Parker) 4:06. 8—Alberta, Cox (Cameron-Dockery) 6:40. 9—Alberta, Kuzyk (Gourlay) 9:03. 10 — Alberta, Hobbs (Kuzyk-Gourlay) 14:34. Penalties — Spice, Jonsson, Kennedy, Saunders.

Edgar Laprade May Play Sunday

NEW YORK, Feb. 22—(AP) — Edgar Laprade, star centre and top scorer of New York Rangers of the National Hockey League, was left behind when the team entrained for Toronto last night.

Suffering from a spinal injury, he nevertheless played the other night and added a sprained ankle to his collection of miseries.

Manager Frank Boucher said he hoped the rest would enable Laprade to return to the Ranger line-up in time for Sunday night's game here with Detroit Red Wings. The New Yorkers play at Toronto tonight.

Eddie Shore Enters Hockey's Hall of Fame

KINGSTON, Ont., Feb. 22 -(CP)- Seven hockey greats whose playing careers spanned the first 40 years of the 20th century today entered hockey's Hall of Fame with 10 other immortals of the sport.

Five of the seven, whose names were announced Friday by Mayor Stuart Crawford, president of the Hall of Fame, played as professionals, but two others played only as amateurs.

The two amateurs are Russell Bowie, a star for 17 years with the old Montreal Victorias, and captain James Sutherland, once a star junior player, but better known to hockey fans as a past president and a life member of both the Ontario Hockey Association and the Canadian Amateur Hockey Association and the prime mover in the establishment here of the hall of fame.

"Advance... King George's Keys!"

Through the darkness of the great arch of the Bloody Tower, in the dim light of an old candle-lantern, comes a figure clad in a long scarlet tunic, carrying a bunch of keys. It is the head warder of the Tower of London, escorted by a sergeant and four men.

"Halt, who comes there?" cries the guard.

"The keys!" the warder answers.

"Whose keys?"

"King George's Keys!"

"Advance King George's Keys—all's well!"

The warder and his escort advance to the guard-room. The guard, in scarlet tunics and high bearskins present arms.

Thus do the bearers of "The King's Keys", with mediaeval ceremony, still make their rounds every night in the Tower of London, locking up the ponderous gates, and finally depositing the keys safely for the night with the Governor of the Tower.

OUTSTANDING ARRAY OF PERFORMERS FOR ANNUAL GLENORA CARNIVAL

Top Stars of Silver Blades to Shine Brightly Here

Entertainment Of New York Calibre Planned

Entertainment of a class that New Yorkers pay fabulous prices to see will be on tap for Edmontonians when the annual ice show of the Glenora Skating club opens for a three-night run at the Arena on Feb. 27-28 and March 1.

Performers who rank as tops on the North American continent in the ice show business will add new lustre to this winter pageant of rhythm and skill.

Fancy skaters who have been filmed with the great Sonja Henie, such as Buff McCusker, will be headlining a starry cast of visiting professional talent.

Also Some Classy Edmonton Talent

In addition there will be the usual display of classy Edmonton talent that has delighted ice sport followers for several seasons now.

Training drills that started early in the winter under veteran instructors at the Glenora club are being continued as the work of polishing off for the big show, reaches a climax.

The show this year will feature the most brilliant costumes yet exhibited at a Glenora carnival. The club sent a buyer to Eastern Canada and the United States to select the best costumes. Additional costumes, for the junior members of he cast, are being completed in the city.

Buff McCusker, Dot McCusker, Skee Goodhart and Joan Ruppe, currently starring in the US, are expected to reach Edmonton early next week.

Stars to Give Extra Performances

These stars have shown an eager enthusiasm to co-operate by putting on extra performances in order to assure success of the show.

The Kennedy "Kids", Karol and Peter, national figure skating champions of the US are expected to arrive from Sweden any day. The two youthful stars have been competing in the ice competitions in Europe. They made the journey to Europe by air and are being flown back from overseas directly to Edmonton to participate in the Glenora show.

Albert J. Huff, ice show manager, states he can assure Edmontonians of the greatest ice show ever presented in this city.

No Expense Spared by Glenora Club

The club has spared no expense in providing the kind of entertainment that critical lovers of skating will approve.

Indications are that the greatest crowds in ice show history will sit in on the Clenora club performance this year.

Director and Designer of Show: Bunty Soley, one of the brightest stars in the Glenora Skating Club, who has designed, and is directing the Glenora Ice Show, which will be held at the arena next week. Among her winnings as a skater is a silver medal. As one of the "special" events of the show, she will take part in one or two numbers.

DAZZLING DISPLAY: Here are **"Buff" McCusker**, former skating partner of Sonja Heinie, and his beautiful new partner, **Joanne**, who also is **Mrs. McCusker**. This team of American ice artists will occupy a headline spot on the program of Glenora Figure Skating club's annual show in the arena Feb. 27 and 28 and March 1.

☆ ☆ ☆

Programs Feature Of Glenora Show

One of the features of the Glenora Ice Show will be the program book, according to Albert J. Huff, manager and director of the carnival. Mr. Huff said that it will be artistically-prepared and decorative. There will be a minimum of text and a maximum of pictures, with the whole aiming to serve as a memorable souvenir of the show, worthy of being sent to friends in distant lands.

Members of the Lady Aberdeen League are in charge of program sales, and proceeds will be applied toward the league's work of maintaining the library at the Colonel Mewburn Pavilion.

TRAINS SKATERS: Stephanie Macdonald, professional at the Glenora Skating Club, who is one of the finest skaters in the Dominion, and at the same time is one of the most efficient teachers. This winter she has brought along many of the younger members of the club to a high point of efficiency. She is the possessor of medals and other trophies in proof of her ability.

☆ ☆ ☆

HEADS SHOW: Albert J. Huff, manager and director of the Glenora Ice Show. He reported today that estimated attendance was greater than that of previous shows. He said that no effort had been spared to make the show the finest and largest ever held in Canada.

☆ ☆ ☆

Comedy Skaters: The elaborately costumed couple pictured above are ranked among the top comedy stars of American ice shows and they will come to Edmonton direct from the production "Hollywood On Ice" to perform at the Glenora ice show in the arena. They are **Dot McCusker** and **"Skee" Goodhart**, whose weird ballet routine has convulsed audiences throughout the U.S. Their act opens as a serious ballet number but soon breaks down into a series of hilarious miscues and collisions. Miss McCusker and Mr. Goodhart are two of the seven outstanding skaters billed for the Glenora show, which will include a cast of about 200.

☆ ☆ ☆

Senior Club Champion: Miss Phyllis Sutton, senior women's champion of the Glenora Skating Club in 1945 and 1946 who will be one of the prime attractions in the club's ice show at the arena next week. She will give solo exhibitions. This will be her 12th carnival.

☆ ☆ ☆

Family Proves Attraction: Among the highlights of the Glenora Ice Show at the arena next week will be exhibitions of skating by the **Munro Family**. Separated as a result of war activities, members of the family are together again after two years. From left to right they are **Rosemary, Alex**, the head of the family; **Lillian** and **Murdo**. Rosemary, now resident of Calgary, has come up specially for the show. She was intermediate club champion in 1944. Murdo has been senior men's champion of the club for 10 years. Lillian was intermediate club champion in 1944.

Brother, Sister Act: Known to figure skating fans throughout North America as the "Kennedy Kids", the pair pictured above will be on hand to thrill spectators at the 19th annual Glenora Figure Skating club ice show in the Edmonton arena. They are **Karol Kennedy**, 14, and her brother **Peter**, 19, and they will come here by plane direct from Stockholm, Sweden, where they are competing in international championships. They are representing the United States in that figure skating competition. Widow Can Prepare For Middle Age

AMONG THE most pathetic letters that come to this column are those from middle-aged and elderly widows who are practically dying of loneliness. Whether their mates were good husbands or bad husbands their deaths closed a chapter in their wives' lives, and the poor souls do not know how to fit themselves into a life in which they will be strictly on their own.

Marriage has been their profession and with their husbands' death, their occupation is gone. Their houses are empty with no man in them. There is no incentive in getting up an elaborate meal to eat alone. Even the most garrulous can't stay on an interesting conversation talking to themselves. There is no fun in making plans for things that you have to do yourself. And you can't put any real pep into an argument where there is nobody to dispute you.

BESIDES WHICH, the lonely widow finds that just living has become a complicated problem for her. She doesn't want to break up her home, yet she is afraid to live in it alone. She doesn't want to inflict herself on her married children and be resented by her in-laws. She can't just put on her hat and kill a dull evening by going to the movies, or a concert by herself, as a man can. And she isn't invited out to dinners by her friends as often as she used to be, because while an unattached man is always a godsend to a hostess, an extra woman is a millstone about her neck.

So it is no wonder that widows are lonely and that so many of them are on the husband hunt and not overly particular about what sort of game they bag. Just any male who looks reasonably good and who will talk back when talked to. But, alas, the woman who does this often finds that she has jumped out of the frying pan into the fire, and the widow discovers that instead of getting a fireside companion she has a critic on the hearth.

Inasmuch as statistics show that wives are apt to outlive their husbands, every woman should prepare herself for potential widowhood by providing herself with enough interests to keep her occupied and interested, if she is left alone. Primarily, she should familiarize herself with her husband's business and be able to handle his estate if he dies. And, in case her husband is a poor man, she should acquire some trade or profession by which she could support herself and her children.

SHE SHOULD keep up her friendships as a protection against the time when her children will have grown up and gone about the business of life for themselves, and when she will be left forlorn if her husband should die. It is easy to keep in touch with those to whom you can say "do you remember," but it is practically impossible for a middle-aged woman to break into a circle of strangers.

It is nonsense to say that every woman should keep herself young and beautiful, because it can't be done. But every woman can keep herself interesting and companionable if she keeps in touch with her world and reads and studies and goes places and does things that give her something to talk about instead of Johnny's croup and Marybelle's dates.

The lonely widow is a pathetic figure. True, but she needn't be if she will make herself good company.

Cheese Biscuit Crust: Make regular biscuit dough (use only 1 cup flour). Add 1-3 cup grated cheese with flour. Pat dough into circle to cover casserole. Cut into pie-shaped wedges. Cover mixture. Bake 30 minutes at 400 degrees.

Bridge

By William E. McKenney

Brooklyn has many fine bridge players, a fact that was demonstrated last year when the summer session of the national championships tournament was held at the Hotel St. George in that city. There will be a big turnout from Brooklyn this year when the summer nationals return to the Hotel St. George August 2 to 10.

Robert Chatkin, who runs the Kenmore Bridge Club in Brooklyn, gave me today's hand, which came up in a rubber bridge game at the club. He thought South justified in opening the bidding with one heart, but that his free bid of three diamonds over two spades was a little optimistic.

North had an original bid himself, and from South's bidding he thought that his partner held not only an original bid but some additional strength. Therefore North jumped to five clubs.

When the ten of spades held the opening lead, East continued with the nine-spot which Chatkin (West) overtook with the jack.

Now should he lead the third spade and give declarer a chance to ruff it in dummy, or should he lead a trump? Chatkin was quite sure that North held six clubs for his free jump bid to five clubs. He also was quite sure that East held only three spades originally, as otherwise he would have led his

North: ♠ 7 5 2 ♥ 8 ♦ K 6 4 ♣ A K Q 8 6 4

Chatkin (West): ♠ A K Q J 3 ♥ 9 4 ♦ 8 3 ♣ J 9 5 2

East: ♠ 10 9 6 ♥ K Q 7 5 3 2 ♦ J 9 7 2 ♣ None

South (Dealer): ♠ 8 4 ♥ A J 10 6 ♦ A Q 10 5 ♣ 10 7 3

fourth best spade rather than the top. Declarer was bound to lead one of the top trumps to see how the suit broke.

Therefore, unless he could kill one of dummy's trumps, Chatkin would not make a trump trick. Having reasoned this, Chatkin continued with the third spade, forcing dummy to ruff.

Of course declarer could have led the ten of clubs from the board and let it ride when Chatkin refused to cover, but that did not look like the logical play. He led the small club and went up with the ace, and then of course he had to lose a club trick.

If Chatkin had led a trump, declarer would have won and East would have shown out. Then North could have gone over to dummy, led the ten of clubs and finessed Chatkin out of a club trick.

Caramel Pudding

One cup flour, ¼ tsp. salt, ½ tsp. baking powder, ¼ cup sugar, ½ cup raisins or dates, 1 tsp. butter, ½ cup milk. Mix above, pour into baking dish then add ¾ cup brown sugar, 1 tbsp. butter, ½ tsp. vanilla, 1½ cups boiling water. Cook all together in moderate oven. This is a cheap and economical pudding. The Book of Knowledge

WONDER QUESTIONS—1

This and the following articles are taken from the Book of Knowledge and can be clipped for saving in a reference book.)

WHAT ARE RHODES SCHOLARS?

Cecil Rhodes was an Englishman who went to South Africa when only a boy and began to dig for diamonds. He was successful, and when twenty years old returned to England and entered Oxford University. His health was delicate, and it was eight years before he took his degree.

After leaving Oxford he returned to South Africa and became very wealthy from mines of gold and diamonds. When he died, in 1902, it was found that he had left most of his wealth to trustees to found scholarships at Oxford University.

Rhodes believed that the world would be helped if all English-speaking people knew more about one another. Therefore the scholars were to be appointed from nearly all parts of the British Empire and from the United States. Germany, too, was allotted five scholars a year, but this was cancelled by the British Parliament in 1916.

Each province of Canada appoints a scholar every year and thirty-two come each year from the United States—four each from eight groups of six states. There are about 200 Rhodes scholars in all. They are young men; they receive about $2,000 each year, and the scholarships are for two or three years. At first they were required to study at Oxford, but now they may choose another university for all or part of the time.

Where Does the Tadpole's Tail Go?

begin to attack and devour the cells that make up the tail. The tail is gradually eaten away and absorbed, until finally, by the action of these cells there is nothing left of it. The material thus disappears by the process which is known as absorption; that is to say, it is used up by something else.

Why Is the Sea Salty?

The sun sucks up the water from the sea, but it sucks up nothing else. The salt of the sea has been brought to it by the rivers. These, as they come down frfom the land, melt away from the land anything that water can melt, and this they carry into the sea. River water contains salt, too, only so very little that we notice nothing. Sea water is so much saltier chiefly because it contains the salt that the rivers have been carrying down to it for ages past. "Salt" is really only a general word for a large number of compounds, like one another to some extent, yet different. It is a mixture of a great number of these that helps to make the sea salt.

What is a Blue Book? A White Paper?

Governments often choose a certain color for binding some of their official publications. In the United States, official diplomatic correspondence, when printed, is bound in red. The use of blue, for the covers of British documents, goes back nearly one hundred years, and the documents have long been known as Blue Books. Only a small proportion of these "Blue Books" are now actually bound in blue. The smaller ones are printed in pamphlet form, without extra covers, and are popularly known as White Papers.

The French generally use yellow, the Belgians gray, the Italians green, etc., for the covers of their official books. Their pamphlet papers are referred to as White Papers.

Why Grow Old?

Actress Joan Winfield demonstrates the correct method to shape the brows—always from underneath—never on top.

By Josephine Lowman

Q. "I want to shape my brows, and do not know how to go about it. Please tell me."

A. ALWAYS SHAPE from underneath the brow. You can pull the strays from the top side but any shaping should be done from below.

Q. "Please tell me if my measurements are correct. I am five feet, six inches tall, and weigh 125 pounds. Bust, 32 inches; waist 25 inches, and hips, 36 inches."

A. You certainly are not overweight. In fact, depending on build, you might be a little underweight. There is too great a difference between your bust and hip measurements. You might take an inch from your hips and add two to your bust, for greater perfection.

Q. "I will soon be 18 years old. I am five feet, eight inches tall and weigh 118 pounds. My bust is 32½ inches; waist, 24 inches; hips 36½ inches. Please tell me if I am in proportion.

A. YOU ARE underweight and this is especially bad in a young person. I would make every effort to gain. Have you tried between-meal snacks and vitamin B? Are you sure your diet is well planned and vitamin-rich, and that you get enough sleep? Also try mild exercise out doors. This is most helpful! Your proportions are within the allowable limits for a fine figure. You might reduce your hips a little, although I will guess that this is a question of boney structure, since you are underweight. In that case, we cannot improve things. However, they are good as they are.

Q. "I am a girl of 13. I am four feet, ten inches tall and weigh 82 pounds. Am I much underweight? If so, how much and how can I gain? My measurements are: bust, 30 inches; waist, 23 inches; hips, 31 inches. What should be correct? And how? Most girls are built bigger than myself and are taller and I feel rather out of place. That is why I am writing to ask you for some helpful advice. Please answer in your column."

A. Yes, you are underweight. Read the suggestions I gave to the girl in the answer to the question before this one. Your measurements are natural for your age. You haven't anything to worry about, except a little more weight. I would add that. Don't worry about the big girls. They probably think you are cute!

Q. "I am five feet tall and weigh 112 pounds. Bust, 34 inches; waist, 25 inches; hips 35 inches. How many pounds should I lose? I am 14 years old."

A. YOU ARE IN a splendid "shape." You might possibly lose five pounds, but at your age, I think it is better to keep it. You will slim down naturally, anyway.

Your Baby and Mine

By Myrtle Meyer Eldred

The most conscientious mother, who wants to do so rightly by her child, expresses a sense of pride when she says, "I try to give my child a reasonable explanation of everything I ask him to do."

This is fine—within reason—but it can be carried to nonsensical extremes. To explain everything to a child defeats its own purpose, since it makes him feel a lack of faith in the just demands of the parent.

A child does not need to be told in detail each night why he has to go to bed, or each day why he has to take a bath. These are routines which are part of good living and the child follows them because they are habitual. He should take it for granted that right things are done for him, and that he should accept them.

When children are asked to do unusual things a sensible explanation may be essential to their understanding. But, we are talking about the usual things with which the child is thoroughly familiar but against which he raises objection in order to halt their performance.

The child who finds his mother willing and ready to enter into a lengthy conversation about WHY he has to wear a coat outdoors, why he must get up in the morning, why he has to eat his meal, is going to take advantage of her. This is a fine way to harness her attention and keep her in perpetual conversation. Children find it hard to keep a conversation going with an adult and if they discover that question asking will do it, then they will use that to the limit of her patience.

Let's get this straight. Honest answers to questions of information, obviously should be given. Answers which explain to a child why he is asked to do something unusual also should be given. But, just the aimless whys and what for which have to do with the acts of a child's day, should be ignored, or he should be instructed to tell the mother why he does them. For the sake of the child himself, much of his activity should be taken for granted. The only real explanation is: that's the way we do things in this family.

Our leaflet No. 70 "Asking Why and What for," discusses further this subject of question asking. It may be had by sending a stamped, self-addressed envelope with this request to Myrtle Meyer Eldred in care of **The Edmonton Bulletin.**

Points for Parents

Not This — Mother: "I'm going to punish you by putting you to bed." Son: "I hate that old bed!"

This — Mother: "Lie down and rest awhile. You're tired, that's why you are so cross."

A rest in bed often prevents behaviour which might merit punishment but something we wish a child to like to do should never be used as a punishment.

Claims Betrayal Of Social Credit

Social Credit is being betrayed into the hands of the people against whom it started to fight, according to Arthur Wray, Social Credit member of the Legislature for Banff-Cochrane.

Cabinet control of members is [illegible] members hesitate to [illegible] Mr. Wray stated in outlining some of his own disagreements with cabinet ministers, particularly the difficulties he had faced when he had requested the clearing of the Calgary-Cochrane road in the winter of 1945-46.

"The Social Credit party was created to lead a drive against the vicious and bankrupt policies of the vested interests and old line parties," Mr. Wray said. "A continuation of the present policy can only result in the complete destruction of Social Credit movement. It cannot exist if we continue to accept and execute the disastrous policies today promoted inside our government by the Conservative party."

The Cochrane member is no longer admitted to the government caucus, following his rebellion against cabinet authority at the 1946 session. However his seat in the legislative chamber is still with the government benchers, and Mr. Wray [illegible] that he has no intention of crossing the floor of the house.

This Home-Mixed Cough Relief Is Hard To Beat
Very Easy to Make. No Cooking. Saves Money.
No matter what you've been using, from a prescription to cough drops to colds, you'll be astonished to admit that this surprising cough relief, mixed in your own kitchen, is so much better, so fast, for real results.
Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. (Don't boil, you'll lose your "wear".) No cooking is needed—anyone can do it.
Pinex is a special compound of proven ingredients, in concentrated liquid honey, instead of sugar syrup form, a most reliable soothing agent.
Then put 2½ ounces of Pinex (or, for those used to prescriptions obtained from any druggist) into a 16 ounce bottle, and fill up with your sugar syrup—money will be refunded.
This makes 16 ounces of excellent cough relief—about 4 times as much for your money. Tastes fine—children love it—and it never spoils.
You can feel this home mixture taking right hold of a cough. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages. Eases soreness and difficult breathing, and lets you sleep. Within a few hours, usually, you're on the way to real comfort.

TODAY'S MESSAGE

Monuments in Heaven

The story is told of the man who gave a gift of $25,000 to his church and subsequently became pessimistic concerning the use of his business. When a friend said to him that of he lost the $25,000 now he could set himself up in business again, his answer was: "The money I gave to the church is the only money I have saved."

It is well to ponder the truth that it is what men give to God that makes them rich, not the material blessings they enjoy. It is not necessary to envision the business man who gave so generously to the church must indeed have no gifts of gold to offer. But every man has within him one gift that is bound to please God—his own heart.

In the sight of God, the rich man possesses no more than his poorest neighbor. The sterling man can be no more than the weak. But the poor man can glorify the rich man's heart in God's eyes would the rich man, for all his splendor and luxury, more be the more barren of His creatures. The strong man may accomplish great things in life, but the poor man who does his little for God's sake, may build a monument in heaven.

God measures us by the things we do in His name. The poor man who shares his meal with one more needy far the love of God gives far more, measured by spiritual standards, than the millionaire who writes a check to buy ten thousand meals for the hungry. But every follower of Christ, than the legislator who sponsors vast welfare projects with his mind on the voter's favor rather than God's. It is always the motive that counts. The question is always: "To whom does the heart belong—to God or self?"

Recreation Activities Successful

Varied Youth Program Curbs Delinquency

By Helen Ferris

One of most successful preventatives of juvenile delinquency in this city, and one in which Protestant and Catholic denominations are unitedly active, is the youth recreation program from infancy to adulthood sponsored by the Westmount Community Council.

ORGANIZED in June 1936 to coordinate the recreational activities of the Westmount Community League, the Mountglen Home and School association, and the Mountglen YMCA, and later, joined by the St. Andrew's Roman Catholic Home and School Association, each organization appoints two members, and W. H. Hobbins was elected chairman. Last September, the City of Edmonton Recreation Commission appointed Bert Pettigrew as full time recreation supervisor.

The pre-school recreation class known as "The Happy Gang" for children from two and a half to five and a half years, was organized by Mr. Pettigrew on Sept. 30, with 11 children registered the first day. Today there are 106 on the roll. The daily attendance averages 40 to 50.

SPONSORED BY the Westmount Community League, the class meets five afternoons each week from 2 to 4 p.m. Their program includes crayon coloring, cutouts, plasticine, etc. Mrs. Fern Bailey teaches simple calisthenics and group games; Mrs. Seeger and Mrs. Graham lead in rhythmic games, singing and folk dancing; and the Misses Aleta Viske and Grace MacDonald from the public library tell stories Tuesdays and Thursdays.

In addition to the several specialists, a mothers committee was organized early in December, with Mrs. H. W. Aylsworth as president. Members meet twice a month to help with program planning and preparation of handicraft projects. A Christmas party was attended by 72 children and 45 mothers. A Valentine party with 50 children and 25 mothers, and a tea in January, from which the proceeds were used to augment equipment and materials supplied by the City of Edmonton Recreation Commission.

THE WESTMOUNT Ramblers, a group for boys 6 to 8 years, meet in the community hall each Monday from 4:30 to 6 p.m. for combined athletics and handicrafts. It now has 54 boys registered with an average attendance of 20. Mrs. Bagley teaches games and calisthenics, and Gordon Cooper instructs the Scout Home Building code.

The Westmount Kiddettes, is a similar group for girls 6 to 8 years old. They were organized at the same time with a registration of 30, but now has 53, with an average attendance of 28. The program is on weekly Thursday meetings features junior handicrafts, sewing, games and physical education with Mrs. Eva Berry and Miss Sydney Fleet as teachers.

The Westmount Kids' Town group, organized by Mr. Pettigrew began Nov. 1 with 12 registrations of boys and girls 9 to 12 years. By the end of December membership had increased to 48. At the opening meeting, there was an election of civic mayor, town treasurer, clerk, commissioners, and aldermen. Its program contains training in business meeting procedure, group games and physical education.

ON JAN. 1, Mountglen YMCA took over sponsorship, and it was divided into Girls Town and Boys Town. Thirteen girls are led by Miss Banks and Mrs. Dey supervised by Mr. Pettigrew, engage in citizenship, calisthenic exercises, games and folk dancing, from 4:40 to 6 on pay each Friday.

The 50 members of Boys' Town meet each Wednesday for two hours of club activities and hobby craft. Armour Bull supervises them, assisted by Bert Pettigrew, Fred Pemberton, Ed Mullaz, Grant See and Gerry Thompson. The boys bring their suppers, and complete a well-rounded program in the Westmount school gym, with Manley Nichols as director.

The teen-age badminton club supervised by Bert Carver and Bert Pettigrew, meets at 7 p.m. Fridays in Westglen school. It has 36 participants, with an average attendance of 18 to 20.

MOUNTGLEN YMCA has several physical education classes for boys and girls 9 to 19 years. Classes are held in Westmount and Westglen schools with swimming at the central "Y" Friday nights and Saturday mornings. Junior, intermediate and senior boys' leaders are Armour Bull, Dick Clegg and Manley Nichols. Girls' leaders are Elsa Schwartz, Joan MacDonald and Dorly Garside. The two leaders' corps are directed by Armour Bull.

A YMCA building is being constructed on 127 street next door to the Westmount community hall. Funds were donated by generous central YMCA friends, and construction is on a volunteer basis. When completed in the spring, the 70 by 20- foot structure will have one large, and two small club rooms, an office, kitchen and other facilities for the extension of this work.

Christian Science

"Mind" will be the subject dealt with in Christian Science churches on Sunday. The Lesson-Sermon is composed of passages such as these: "Art thou not from everlasting, O Lord my God, mine Holy One? Thou art of purer eyes than to behold evil, and canst not look on iniquity." (Habakkuk 1, 12, 13). "We bury the sense of infinitude, when we admit that, although God is infinite, evil has a place in this infinity, for evil can have no place, where all space is filled with God." (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 468).

YPU Festival

The first Edmonton Presbytery YPU drama festival three one-act years will be held in Metropolitan United church, March 7 and 8. It is expected that 7 least four local plays will be entered and possibly one by an out-of-town group. Tickets may be obtained from members of all United church YPU groups, and proceeds will be used to send the YPU delegate to the Oslo Youth Conference next summer.

AT METROPOLITAN

Special guest speaker at the Sunday evening service at Metropolitan United, will be Dr. G. Fred McNally, Chancellor of the University of Alberta, who has just returned from Europe as Canadian representative to UNESCO.

In the morning the minister will continue his series of sermons on "the Life of Jesus".

Rev. J. D. Carlson To Speak Sunday

On Sunday evening, the Rev. J. D. Carlson will speak in the Memorial Hall at 7:30 p.m. on the subject of "What is Wrong with the Home?"

He will answer the following questions: Should parents attend the movies?—Should parents allow children to attend the movies? If not, why not?

It is also "University of Alberta night" with a male quartet singing and students giving words of witness for Christ.

In the morning service at the Ukrian Tabernacle, 98 street and 107 avenue at 11:30 a.m. the Rev. Ralph Williams will speak on the theme "The Enemy Within" following which Mr. Carlson will lead several into the waters of beautiful Bible baptism. All are cordially invited to attend these services.

The bulldog probably derives its name from its use in the Middle Ages in baiting bulls.

Home Responsibilities

By Margaret O. Wilson

Today we hear much about delinquency, crime and youth. "Why don't we ask "How can we prevent it?" The home blames the schools and the churches. The churches and schools blame the parents and so it goes.

Well, Mr. J. Edgar Hoover once said "The real sufferers of all this trouble are the mothers of the land and at the same time they must accept the formidable responsibility. Discipline, in my opinion" he says "is more and more the need of the modern home. Either you will teach children discipline or the world will teach them discipline in ways that will be destructive of their individual happiness. Not only will they suffer in the latter event, but society at large will incur a grievous loss."

"The crime problem could be solved overnight if the women of the country resolved that it should and must be solved. There is no greater power than the aroused public consciousness of the country's women."

Dog Leads Girl At Church Meet

A blind girl with a "seeing eye" dog was a prominent delegate attending the annual meeting of the American Catholic Philosophical Association in Toronto.

She is Dr. Clementine Wien, a professor of philosophy at Xavier College for girls, Cincinnati, Ohio. Blind at the age of 12, Dr. Wien was not daunted from pursuing her educational ambitions. By means of readers and prodigious memory she made her way through undergraduate and graduate courses, guided in her studies by Dr. Arthur C. Pegis, professor of philosophy at the University of Toronto, past president of the Association.

"SHE IS A remarkable girl," said Dr. Pegis. "A little thing like blindness does not seem to daunt her, and she has proved to be an excellent teacher. Her memory is marvellous."

"I have to use my memory as a notebook" said Dr. Wien. "We blind people have to work harder, but I don't think blind folk are any cleverer than others."

She reviews herself and looks after her own personal wants to a large extent. "Pixie (the dog) is wonderful. All Xavier I just say 'Come along' and he leads me there," she said.

Hide Nationality

Forced re-settlement of Hungarians in South Slovakia is causing many to conceal their nationality to avoid the hardships of evacuation, according to a report sent to the World Council of Churches in Geneva by Albert Hudvanszky, general inspector of the Hungarian Lutheran Church.

Hadvanszky disclosed that a Lutheran pastor in Rozsnyo was sentenced to three years' imprisonment at hard labor for encouraging Hungarian members of his congregation not to betray their nationality.

Hotbed Outside Window Easy to Make and Heat

Hotbed Built Into Basement Casement

The essential requirements of the small home of today are economy of layout, compactness for economy, ample room for comfort and good design. In the floor plans and the attractive exterior of the "Lisbon" shown above all these qualifications are adequately met in a comfortable way. Although this little Cape Cod style cottage has only four rooms, five room efficiency is apparent. The kitchen cabinets arranged with the window dining space and plenty of cupboards. The large porch, a luxury in small home planning, the wash basin under the stair and the fireplace would make this home the envy of many.

This is but one of the fortyseven small homes just issued in our new building guide "Small Homes of Originality." Duplicate floor plans are offered with each exterior and these are detailed drawings of the places, cupboards and other interior suggestions.

A copy of this new book can be obtained at the office of The Edmonton Bulletin, or will be mailed to you postpaid, for $1.00 per copy.

Fun That Saves Money, In Growing Garden Plants

Every home gardener should know how to start seeds in a seed box, which flourish call a "flat" and move the plants when large enough to their destined place in the garden.

In some sections whole gardens are made of such plants, usually purchased. But your own plants can be grown easily at far less expense, once a few simple methods are learned.

There are both advantages and disadvantages in starting seeds this way. It takes longer to grow either vegetables or flowers, because of the set-back which is caused by transplanting. But when the seed box can be started weeks before seeds could be sown outdoors, an earlier harvest is possible, even though growth takes longer.

Some plants are difficult to transplant, all the vegetable root crops for example, and many flowers, such as poppies, and salpiglossis, but skilled operators can transplant almost any subject.

An advantage of the seed box method is that seeds go farther since all that can be grown is plants, if desired; any the plants are placed in the garden in the exact position where they are to mature, and require no thinning. It is easier to grow very small seeds and difficult subjects in a box; and when the weather is too wet, or dry, too hot or cold, the box can be moved about and sheltered from damage.

TODAY'S FLOOR For Playrooms

As Seen in the Saturday Evening Post
Look down, kids! There's something good underfoot. Its name is KENTILE. . . . Water is here for authentic participation. It shaped every figure and every wiggling hand. And as it does it soaks and washes through Kentile colors.
KENTILE COLORS GO CLEAR THROUGH
Because the color of Kentile is throughout the entire tile and cannot chip off, it is the type of flooring material used extensively in children's play rooms, nurseries, kitchens and other rooms where cleanliness is of utmost importance. Kentile is more than the name of the tile. It is the name of the manufacturer who stands behind it.

Wanted "Less Chatter"

Lord Woolton has challenged the British government to give the people "more cheer and less chatter" and to provide them with an incentive to work. "Taxation is killing adventure and work," he said at Manchester. "People want much more of their earnings left to spend and something on which to spend their money. We aren't apostles of austerity. That has its place as a religious exercise but not in our daily lives."

Best Market Pigs At $60 in Chicago

CHICAGO, (AP) — The pigs coming to market nowadays are the most valuable combination of meat and lard ever to land in the Chicago stockyards. Best quality pigs average $60 apiece.

With prices experiencing a persistent upturn, pigs today are "black gold" to the farmer who reared them, and a mighty wallop to the pocketbook of the consumer who will eat the meat that comes off them.

Average price of all hogs sold on the Union stockyards yesterday was the highest in history at approximately $26.50 a hundredweight. Top price of $27.50 for weights 180 to 260 matched the all-time record high set last Oct. 15. A year ago price ceilings on live hogs was $14.85.

Responsible for the price advance, livestock sources said, were small receipts and a continued good demand.

How high will hog prices go?

That depends, traders said, upon how much consumers are willing to pay for pork, but there are some estimates that $30.00 a hundredweight will be reached before the new crop starts coming to market in May. Everyone admits that's a fabulous price for a pig.

Hogs arriving at Stockyards now are the product of last spring's crop, which was comparatively small. Last autumn's pigs won't have enough weight on them for a trip to market until this spring.

"Already 80 percent of the 1946 spring pig crop has been marketed," an agriculture department spokesman said. "The outlook is for a continuing small run over the next several months."

Bert [illegible], vice-president of the Alberta [illegible] of the Calgary branch, was elected vice-president, and R. F. Cook was elected secretary-treasurer.

Members of the board of directors include G. E. Griffiths, Montreal, vice-president and controller of the National Drug and J. C. Mahaffy and W. F. McGill, both of Calgary; E. B. Stokes, Lethbridge; J. H. Balkwell, Trochu; W. B. Butchart, Edmonton; and G. A. Sieman, Montreal.

Mr. Griffiths reported sales of the Alberta company were the highest in the history of the company, and they showed the greatest percentage increase in 1946 sales of any wholesale drug house in Canada. Mr. Lander congratulated the retailers on the 1946 record.

NO SOAP!

THERE hadn't been a single soap flake in the Teenie Weenie village for weeks. The Chinaman had washed the clothes the best he could, but the tiny garments soon began to have a gray look because it is impossible to make clothes white and clean without soap. The little folk had hunted everywhere for the bits of soap that big people usually throw away, but the big people were short of soap, too. The Teenie Weenies could have made soap if they had had grease, but grease was just as hard to find because soap is made from grease.

The Dunce didn't mind the lack of soap. He would rather have dirty hands and face than to go to the trouble of washing, but the rest of the little people, who really like to be clean, minded it a lot. Finally, the General called a meeting in the town hall to discuss the matter.

The Turk reported that he had seen a large piece of soap in a wash bowl in one of the big houses near the Teenie Weenie village and he suggested that they borrow some. The General spoke against that because he had always warned against taking things from big people's houses.

"All we need is a piece about the size of a pecan," argued the Turk. "The big people won't miss that and it will keep us clean for a long time."

After a great deal of talk, the Teenie Weenies agreed that it would be all right to borrow a small piece of the soap, which they would repay in the future. Several of the little men went to the house when the big folk were away. They climbed up a bath towel to the wash bowl and began sawing off a small piece of soap with their Teenie Weenie cross-cut saw. When they had cut through the soap as far as they could with the saw, they tried to pry off the piece with a Teenie Weenie ax. Just as they broke off the piece, the cake of soap skidded off into the bowl, which was nearly full of water.

"We'll have to get that soap out of the water," said the Old Soldier. "If we leave it there it will soak up in the water and be lost."

It was decided that the best way to save the soap would be to remove the stopper and let the water run out of the bowl. The men tried to pull up the stopper by the chain that was fastened to it, but they couldn't move it. It was necessary to fetch a Teenie Weenie block and tackle, and even then it took all their Teenie Weenie strength to pull it free. It took an awful lot of work to get that tiny piece of soap, but little people have to work just as hard for little things as big people have to work for big things.

If you have odd bits of scented soap left over, since you cannot very well use them in your shaker to wash dishes, pare them thin—a potato or apple-peeler does the job very well—and put them in a bottle with hot water, shaking occasionally. The resulting jelly will come in very handy when you need to wash a few hankies or undies or as a ready-made shampoo.

Pecans Give Squash Rich Taste

Pecans and orange juice give a corn squash a different taste.

Squash, packed with vitamin A, responds to good recipes. It's one of the most popular of winter vegetables.

Acorn Squash with Pecans and Orange Juice

Three acorn squash cut in halves, pecans, 1 orange, juice and rind, honey or sugar, butter.

Arrange acorn squash, cut in halves, in a baking dish. Cover bottom of dish with hot water. Fill hollows of squash with pecan meats, halved or chopped. Sprinkle orange juice and grated orange rind over top. Dot tops generously with butter. Place a sheet of brown wrapping paper over top. Bake in moderate oven (350 degrees F.) ¾ to 1 hour, until tender.

Plain Baked Hard-Shelled Squash

One Hubbard squash, 4 tablespoons butter or bacon fat, salt, pepper, paprika.

Cut squash in half; remove seeds and stringy inside. Cut again, if squash is large, into smaller sections or into cubes. Dot with fat, sprinkle with salt, pepper, paprika. Cover bottom of baking pan with boiling water. Place piece of greased paper over top. Bake in moderate oven (350 degrees F.) ¾ of an hour to 1 hour until tender. Serve plain, or if desired, fill the hollow of each section with a spoonful of meat gravy (from whatever meat dish is to be served with this meal) and send to the table piping hot.

To Serve Steamed Squash

Steam squash over hot water until tender—and for this, squash may be cut in halves, quarters or cubes. When tender, squash may be glazed or mashed.

Glazed Squash

Sprinkle steamed squash with sugar, or drizzle honey over top. Sprinkle lightly with nutmeg or powdered mace. Dot top with butter. Brown lightly under broiler heat. Serve at once.

HAMBURGERS

Dip 3 or 4 slices of either stale or fresh bread in water, squeeze water out and mix with ½ lb. of hamburger, 1 egg, 1 grated or cut fine onion, 2 or 3 tbsps. of catsup and salt and pepper to taste. You may stop right there and have a grand dish but if you have a few leftovers or spoonsful of corn, peas or beans mix them in too. There lies the hash of these burgers. Form into fat patties and fry like hamburgers. Serve while hot.

• • •

MEAT LOAF

Two lbs. ground meat, 2 cups corn flakes chopped fine, 2 eggs, ½ cup milk, 1-3 cup catsup, ¼ tsp. salt, 1 big onion cut fine, 1 tsp. poultry dressing. Put in a loaf pan. Bake 350 deg. F. for one hour.

CHEESE SOUFFLE

Four tbsps. butter, 3 tbsps. flour, 1 cup milk, 1 cup grated cheese, ½ tsp. salt, ½ tsp. mustard, 3 egg yolks, 3 egg whites. Melt the butter in a sauce pan, add flour, when smooth add milk, salt, mustard, when thick add cheese. Stir until smooth, add egg yolks. When cool fold in stiffly beaten whites, pour in greased dish, set in water, bake 300 deg. F., 45 minutes.

• • •

MEAT SOUP CASSEROLE

Two or 3 lbs. ground steak, salt, pepper, add 2 large onions. Mix well and add 1 tin vegetable soup and 1 tin cream of mushroom soup. Mix thoroughly and pack in greased casserole and bake in a slow oven till well done. Two to three hours.

Meat and Supper Dishes

Autumn Vegetable Scallop

One and one-half cups small white onions, 4 or 5 medium-sized carrots, 1 can (10½ ounces) condensed cream of mushroom soup, ½ cup milk or water, ⅓ cup coarsely chopped walnuts, ½ cup soft bread crumbs, 1 tbsp. meat drippings, margarine or butter.

Wash the onions and peel them, then boil them in plenty of salted water until tender. Scrub the carrots, cut in not-too-small chunks and cook in very little boiling salted water, cover until tender. Mix the soup with the milk or water, beat add the walnuts. When the vegetables are tender, drain the onions, but do not drain the carrots (there should be very little liquid left of them).

In a casserole put first a layer of carrots, then of the soup mixture, then of onions; repeat. Top with "buttered crumbs" (heat the drippings, butter or margarine in a skillet, add crumbs, and stir till well-mixed). Bake in a fairly hot oven (400 deg. Five Key Factors Govern Growth

Children need many food elements for healthy growth. These indispensable nutritional elements, listed with the foods in which they are found most plentifully and with the functions they serve are:

PROTEIN: Milk, meat, fish, eggs—To repair worn out tissues; to build new tissues.

MINERALS: Milk, green vegetables, fruit, egg yolk, meat, fish, whole-grain cereals— To maintain body processes, to build bones, teeth, blood and other parts of the body.

There are four nutritionally-important VITAMINS: VITAMIN A: Whole milk, cream, butter, egg yolk, cod liver oil, liver, dark green leafy vegetables. (Vitamin A is lacking in margarine except that made from beef fat) —For growth; to increase resistance to infections, and to prevent xerophthalmia (an eye disease). VITAMIN B1: Vegetables (especially leafy vegetables), whole-grain cereals (especially those containing the germ of the grain), fruit, and, to a slight extent, milk —For growth; to stimulate appetite; and to prevent beri-beri (a disease of the nervous system); VITAMIN C: Raw fruit (especially citrus fruit—oranges, grapefruit, lemons), raw or canned tomatoes, raw cabbage, raw carrots, raw turnips (pulp or juice)—For growth; to help build good teeth; and prevent scurvy; VITAMIN D: Cod liver oil, egg yolk—To prevent rickets, and to help build good teeth.

ROUGHAGE: Fruit, vegetables, whole-grain cereals, and bread— To regulate bowels and prevent constipation.

WATER: Fruit, vegetables, milk, and soups. In addition, some drinking water must be taken every day — To help build and maintain blood and tissues; to provide proper elimination by kidneys and intestines, and to help regulate body heat.

Clean and chill the shrimp. Arrange endive in glass custard cups that have been chilled. Arrange the shrimp on the endive and pour sauce on each cup of shrimp. Sprinkle the tops with the chopped parsley.

Sauce

One-quarter cup tomato catsup, ¼ cup chili sauce, ¼ cup lemon juice, 5 drops Tabasco sauce, 1 teaspoon horseradish.

Combine the ingredients for the sauce. Serve cold. Accompany with lemon wedges and toast strips that have been brushed with melted butter and sprinkled with paprika before toasting.

Filling

One pound dates, 1 cup brown sugar, 1 cup hot water, 1 tsp. vanilla. Cook well and put between the bars.

Pies

• • •

Butter Tarts

One cup currants or sultanas 1 cup brown sugar, 2 tbsp. butter, 1 egg, ½ tsp. vanilla.

Clean currants and put in mixing bowl, scald with boiling water, drain and while currants are still warm, add brown sugar, butter and beaten egg. Stir well together. Add vanilla. If the ingredients are mixed together while currants are still warm there will be a nice butterscotch-like syrup. Line tart dishes, muffin tins or dessert dishes with pastry and put in a tsp. of filling. Bake in 400 deg. F. oven.

• • •

Special Pastry

To make the pastry, sift the flour, measure it, then sift it again with the salt and baking powder. Add half of the grated cheese, then blend in the shortening with the fingertips or a knife or pastry blender. Moisten the mixture with just enough (five or six tablespoons) of iced water to make a stiff dough.

Roll the dough thinly on a floured board. Cut into four-inch squares. Place one tbsn. of the fruit mixture on each. Sprinkle each with a little of the remaining grated cheese. Wet the edges of the pastry with cold water, fold over to form a triangle, press the edges together with the fork. Lay on a lightly greased and floured baking sheet or in a shallow pan.

Bake in a hot oven (400 deg. F.) 15 minutes or until lightly browned. This makes 12 turnovers.

Try one of these in the lunch box, or on the late snack tray with cold chicken or turkey.

Hints for Pie Making

When making pumpkin pie, and you haven't much time, try mixing the canned pumpkin according to directions on can, only I put mine on the stove until it heats through. Not enough to thicken it thoroughly, but just enough to heat it through. Then I pour it into my pie shells and place in oven. It doesn't take so long to bake and the preheating is done while I make the crust.

When making the pie crust, I sometimes mix up extra flour, shortening and salt, place this in a well-covered bowl and store where cool. Then sometime when I am in a hurry and want a pie, it only takes a jiffy to place two cupfuls in another bowl, add water, and mix. I roll it out on a waxed bread paper and when I am through I can burn the crumbs, etc. This does save a lot of time and is an excellent idea when one is expecting threshers. I generally mix up an extra lot and keep in a crock. The morning the threshers arrive, it only takes a few minutes to roll out the pie crust. Then the crust is light, fluffier, as the shortening sort of mixes through the flour while standing in the crock.

• • •

Fruit Turnovers

Mix together 1½ cups cake flour, ½ tsp. salt and ½ tsp. baking powder. Cut in ½ cup lard, adding the water as needed until ingredients stick. Roll out in thin sheet. Place thick jam on half of circle. Or use mashed prepared fresh fruit blended with sugar as needed. Fold other half of pastry over, press edges firmly together. Then bake in hot oven until golden brown.

• • •

Date Custard Pie

Cook milk and dates in double boiler for 20 minutes. Cook a little, then add beaten eggs, salt and sugar. Fill pie shell and bake. Serve with whipped cream.

Meat and Supper Dishes

Meat Pie

Ingredients: 2 lbs. beef cut into pieces as for stew (the tough cuts may be used for stewing), 2 tbsps suet, butter or other fat, 1 tbsp. chopped onion, 2 tbsps. flour, 2 cups water, 1 cup celery cut into pieces, 1 cup carrots cut into slices, 1 cup potatoes diced, 1½ tsps. salt, 1 tsp. kitchen bouquet. Wash the meat, put the fat and onion in pan in which the pot-pie is to be baked. Heat fat and onion on the surface burner. Then add the meat. Sprinkle flour over meat. Cook mixture until meat is browned, stirring occasionally so that the meat is browned uniformly. Then add water, celery and carrots. When mixture reaches boiling point, cover pan and put it in oven at 300 deg. F. Bake for 2 hours, after the 2 hours of baking add the potatoes, salt and kitchen bouquet, over the vegetables and meat place crust prepared as follows: 1½ cups flour, 3 tsps. baking powder, 1 tsp. salt, 2 tbsps. butter, ½ cup milk. Mix and sift dry ingredients. Work in the butter thoroughly, add milk. Drop dough in spoonful on top of the meat and vegetables with a knife or spoon spread the dough slightly so that it almost covers the materials. Bake in hot oven about ½ hour. Serve immediately.

Roast Chicken or Turkey

Wash, singe and draw the fowl, rub it with salt and pepper inside and out, and stuff the fowl, any stuffing may be used. Truss and tie the fowl. Grease it well with savory fat or olive oil. Dredge with flour and place it in a roasting pan in a hot oven to sear quickly so its juices may not escape during roasting. After 20 to 25 minutes, when the skin is well seared, cover the pan, lessen the heat, and cook until the breast is tender. If cooked in an open pan, as soon as the flour is nicely browned, baste well, adding a little fat or water if necessary, repeating basting every 10 minutes. Allow about 20 minutes to a pound. Serve with buttermilk biscuits. For the roast turkey follow the directions for roast chicken. An eight-lb. turkey should be allowed three hours in a moderate oven. It may be dredged with flour a second time, about one hour before it is served. A very large turkey may be placed in a clean cotton bag, if a large enough covered pan cannot be had. Baste it often to keep it from burning. A young chicken or turkey will cook in less time than an older one. Test it by using a toothpick. If it is done the pick will go in very easily in the thick parts of the fowl. Some use their broiler pan under a large turkey.

• • •

Chicken Pot Pie

Clean, singe and cut up chicken, place in pot and nearly cover with water. Cover pot and simmer gently. An old fowl must be cooked about four hours, but a year-old chicken will require only one or two hours cooking. Remove cover during last half hour to reduce gravy to about 1½ pints. Twenty minutes before serving place dumplings on top of chicken, cover well, and cook until done.

Country Style Meat Patties

One lb. ground meat, any kind, ¾ cup bread crumbs, ⅓ cup evaporated milk, ¼ cup finely chopped onion, 1 tsp. salt, a little pepper. With wet fingers shape into 8 patties and roll in 2 tbsps. flour and ¼ tsp. salt. Brown on both sides in 2½ tbsps. fat, add 1¼ cups hot water. Cover tightly and simmer (not boil) for 45 minutes or till done. Use gravy over potatoes.

• • •

Salmon Balls

One can salmon, 4 rolled soda biscuits, 2 eggs. (Remove the white of one and mix all together and season. Make into balls, roll in the beaten egg white. Fry in butter.

• • •

Preserves

Citron and Lemon preserve

Prepare the citron by paring and removing seeds, cutting it in any shape desired. Weigh and use half as much sugar as fruit if not wanted very rich, or equal quantities if otherwise. Make a syrup of the sugar and half as much water or citron water. Add two thinly-sliced lemons for each pound of fruit and boil 15 minutes. Add the citron and boil until clear, then remove to sterilized jars and keep hot. Boil the syrup until of the desired consistency. Fill jars with the boiling syrup and seal. This may be varied by cooking a little ginger root with the lemon.

Guests Enjoy Fudge Sauce

Week-end hospitality—ice cream with fudge sauce.

Fudge Sundae Sauce
(Makes 1¾ cups sauce)

One-half cup breakfast cocoa, ½ cup sugar, dash of salt, 1 cup corn syrup, 1 cup hot water, 2 tablespoons butter

Mix together cocoa, sugar, and salt in saucepan. Add syrup and water gradually, stirring until smooth. Bring to boil over low heat, stirring constantly. Continue boiling, without stirring, 12 to 15 minutes, or until mixture thickens (220 degrees F.) and small amount forms a jellied mass in cold water. Remove from heat. Add butter.

Serve hot or cold over ice cream, cake, pudding, or other dessert.

Chocolate Sundae Sauce
(Makes 1 cup sauce)

Two and one-half squares unsweetened chocolate, ½ cup water, ¾ cup sugar, dash of salt.

Add chocolate to water in small saucepan, bring to a boil, and cook gently 4 minutes, stirring constantly. Add sugar and salt, and boil 4 minutes longer, stirring constantly. Serve hot or cold on ice cream, puddings, or cake.

This sauce may be kept in an air-tight container in refrigerator and used as a syrup base for hot chocolate drinks.

In place of ice cream, you can use prepared vanilla puddings. Add an egg with the milk when making. Pour into sherbet glasses and decorate with nuts. Serve chilled with chocolate sauce.

When overcoats are beyond repair, cut them in squares and make quilts. They are warm to use when riding in cars in the winter and grand for cutter blankets. The chamois lining in winter coats can be used for cleaning windows.

Put washed fresh spinach in kettle, with no water added. Cover, and cook until just tender. (If frozen spinach is used, follow cooking direction on the package). Reserve liquid. Fry bacon until crisp and brown, and add the cooked bacon bits to the drained spinach:

Stir flour into bacon drippings and blend thoroughly. Add spinach liquid to milk and gradually add to flour mixture in frying pan. Cook until thickened, stirring constantly. Add spinach and bacon, salt, onion, and vinegar to white sauce, and mix until blended. Heat thoroughly (do not boil) and serve immediately.

Cakes

Black Hill Cake

One cup gran. sugar, butter about size of an egg, 1 egg, 1 cup sweet milk, 2 tsps. cream tartar (level), 1 tsp. baking soda, 1 pint flour.

Beat sugar and butter together well, add other ingredients, pour 2-3 of mixture into long pan and to remaining third add 2 tbsps. molasses, ½ tsp. ground cloves, ⅛ tsp. allspice. Mix together and pour over top of first mixture. Bake in moderate oven.

* * *

Yorkshire Spice Cake

Three-quarters cup butter, 1½ cups brown sugar, 3 eggs, 3½ cups bread flour, ½ nutmeg grated, 4 level tsps. baking powder, ½ tsp. salt, 3 cups currants, ¾ cups mixed chopped peel, 1 tsp. vanilla, 1 cup milk

Mix and bake at 300 to 325 degrees for 1½ to 2 hours.

* * *

Applesauce Cake

Two cups sugar, 1 cup butter, 2 cups boiling applesauce, 1 square chocolate, ½ cup walnuts, 1 cup raisins, 1 tsp. cinnamon, ½ tsp. each of cloves and nutmeg, 1 small glass of jelly or jam, 3 cups flour sifted with 2 tsps. baking powder, 2 tsps. soda, dissolved in hot water.

Mix in order given and bake in slow oven, 325 degrees. This cake stays moist.

* * *

Gumdrop Cake

Two eggs, ½ cup butter, 1 cup gran. sugar, ¼ tsp. salt, 1 tsp. each nutmeg and cinnamon, 1 tsp. baking powder, 1 cup milk, 1 pound gumdrops, 3 cups all-purpose flour (more if necessary). Make like a fruit cake. Don't use any black gumdrops.

Cream butter, add sugar gradually and cream well, add eggs one at a time and beat after each addition. Cut gumdrops very fine (Scissors frequently dipped in hot water are best for this), dredge with part of flour; sift flour, measure and sift again with salt, spices and baking powder; add flour to first mixture alternately with milk; add fruit and mix well. Bake in greased loaf pan in moderate oven.

* * *

If brown sugar goes hard, a potato peeled and placed in jar will soon soften it up.

If you let doughnuts stand after cutting for 15 minutes they will not soak up the fat.

Pickles

Never Fail Dill Pickles

Fill 1 quart jar with 4 or 5 inch cucumbers. Put dill in bottom of jar and on top. Put in 2 tbsps. salt. Fill jar ¾ full of boiling water, (keep jar hot while doing this to keep from breaking), then fill jar with hot vinegar and seal. When cold store in dark place or in paper bags. These are always crisp.

* * *

Crabapple Relish

This is an unusual relish, and specially good with cold boiled ham, or as an addition to meat sandwich fillings. Take about 8 lbs. well-scalded crabapples that have been put through a colander. Add also 3 cups sugar, 3 cups diluted vinegar, 1 tsp. black pepper, 1 tsp. each cinnamon and cloves and 1 tbsp. salt. Boil altogether until of a jamlike consistency. Seal as usual.

* * *

Sauerkraut

Discard bruised or decayed outer leaves and core of the cabbage. Weigh and allow one pound of salt to 40 pounds of cabbage. Shred cabbage and place a four to six-inch layer in a water-tight receptacle. Sprinkle lightly with salt; repeat until all the cabbage is packed. Press down firmly, cover with a cloth, a clean board and a heavy weight so the brine, when formed will completely cover the cabbage. Let stand at room temperature, 70 degrees F., or lower while fermentation is taking place — two to six weeks. When bubbles cease to rise fermentation is complete. Remove all scum. Cover crock with a clean cloth and lid. Store in a cool place. Kraut may be sealed in sterilized, air-tight sealers, using enough of the brine to fill jars completely. If made late in the fall, kraut may be frozen when fermentation ceases.

* * *

Uncooked Crock Pickles

Eleven-quart basket of gherkins or small cucumbers. Soak overnight in brine. Add to mixture in crock.

Mixture — 1 gal. cider vinegar, 2 cups brown sugar, 1 cup salt, 2 oz. turmeric, 2 oz. curry powder, ⅝ lb. mustard seed, ⅛ lb. mustard, alum size of marble, onions celery, cauliflower may be added. Stir often.

Biscuits, Buns, etc.

Fruited Bran Gems

(No sugar)

One cup finely cut dates, 2-3 cup boiling waer, 1 cup whole bran, 1 cup sifted flour, ¼ tsp salt, 3½ tsps. double-acting baking powder, 1 egg well beaten, 3 tbsps. melted butter or other shortening, 1-3 cup molasses.

Combine dates and water. Let stand 5 minutes. Add whole bran. Sift flour once, measure, add salt and baking powder, sift again. Add egg, butter and molasses to bran mixture. Add flour, beating as little as possible. Bake in greased muffin pans in hot oven. Makes about 12 muffins.

Candy

Deviled Peanuts

Put into a saucepan 1 tbsp. butter, 1 eggspoon cayenne pepper and ½ tsp. salt. Drop peanuts in (no more than the mixture will cover) and stir until they are a light golden color. Then drain on absorbent paper.

* * *

Molasses Mint Taffy

(Makes 70 to 80 pieces)

Two cups molasses, 2 tsps. vinegar, 1½ tbsps. shortening, ⅛ tsp. salt, ½ tsp baking soda, 7 drops oil of peppermint.

Cook molasses and vinegar, stirring constantly, to 260 degrees F., or until a little dropped in cold water becomes brittle. Remove from heat; add shortening, salt and baking soda. Stir until mixture ceases to foam. Pour into a greased or oiled platter, or shallow pan. When cool enough to handle, drop peppermint on it. Then the fun begins! Two people grease or oil their hands well and pull the candy between them. After each pull, one passes his end of the candy to the other. Continue pulling until candy is light in color, and begins to harden. Then pull into two long strips and cut with scissors into one-inch pieces.

While living in England during the war I reserved any toffee or chocolate I could get and melted it for sweetening in cakes and puddings. I also save every last drop of syrup from fruit in a bottle and use for sauce for puddings. As this is usually already sweetened, sugar is conserved.

Too busy to squeeze large glasses of orange or grapefruit juice for the family breakfast? Then try the canned variety. The canned blended orange and grapefruit juice is popular. It's a good base, too, for mixed fruit drinks.

Flowers Beautify Easter Table

Easter loveliness—Chinese lilies, pansies, tall candles, pansy-patterned Irish linen, silver, and crystal.

Loveliness with flowers— that's the theme for the Easter dinner table.

Every woman wants a new hat for Easter, and new china and glass for her holiday table.

A gleaming Irish linen tablecloth is also part of the Easter table tradition. It may be one of the somewhat scarce new ones, or it may be an old cloth with all of its original beauty brought out by perfect laundering.

No Shortage of Flowers

But one thing we don't have to worry at all about getting is flowers. Their radiance will counteract overly familiar table appointments. So why not concentrate your efforts on a lovely centerpiece.

Begin with a glass baking dish filled with damp sand. Then plant it close, in spring flower bed fashion, with Chinese lilies.

For candlesticks, use sand-filled glass custard cups, planted with purple and yellow pansies.

When mixing a cake, after last ingredient is added, take your egg beater and give the batter a few "rounds" with it. You will be surprised in the difference in the texture of your cake.

When mixing thickening for gravies, etc., add a pinch of salt to the flour and it will not go lumpy.

Desserts

Candied Oranges

Peel and quarter the oranges; make a syrup of 2 cups sugar to 1 cup water, let boil until the syrup will harden when tested in cold water. Then take from the stove; dip each piece of orange in the syrup, let drain on a fine sieve placed over a platter or pan, so the syrup will not be wasted, reheat the syrup and dip oranges the second time. Nice served at mealtime — the big red cherries made this way are as nice as the glazed cherries one buys for Christmas baking I have tried oranges, lemons, cherries apricots, green gages. Just halve and remove the pits from the cherries apricots and green gages and those big red plums.

• • •

Tomato Butter

Ten lbs. ripe tomatoes, 5 lbs brown sugar, 1 pint cider vinegar, 1 tbsp. cloves, 1 tbsp. cinnamon 1 tbsp. allspice.

Peel tomatoes and quarter. Mix all together and boil gently 3 or 4 hours

Helpful Hints

Here is a simple little hint. I could not get buttons to suit me so just took old buttons the size I wanted and crocheted over them with wool. I think they are prettier for childrens dresses and very simple to do. You could use mending wool, angora or any fine wool or heavy crochet thread.

1. When sewing by machine, keep a small paper bag tied at the end of the machine. ????? this drop all bits of scraps of thread —thus the floor will be kept clean. When the sewing is completed, the bag may be discarded.

2. Easy made knitting box — Cover a large round oatmeal box with wallpaper. With a pretty picture on the side and a gay ribbon for the handle, it is nice enough to carry knitting anywhere.

3. Old buttons may be made like new by treating with colorless nail polish or they may be tinted any shade desired by using any of the colored polishes.

Cleansing Cream

One oz. white wax, 1 oz. spermaceti, 5 oz. white mineral oil, 1½ oz. rosewater, 3 grains borax, 15 drops perfumed oil (such as lavender or bergamot.)

Melt the white wax and spermaceti together. When fluid, add the mineral oil, stirring well. Dissolve the borax in the rosewater and perfumed oil. Stir until quite firm and pour into a jar.

• • •

Home-Made Toilet Soap

One pound of washing soda, one pound of tallow or lard, half pound of unslaked lime, one tablespoon salt, three quarts of water. Put soda and lime in dish. Pour over it boiling water, stir until dissolved. Let it stand until clear, pour off the clear liquid, add grease and salt. Boil four hours then pour into pans to cool; if it should incline to curdle, lime may be too strong. Put in a little more water and boil again, add perfume as you like, pour into molds and let harden. Cream rouge one teaspoon and ashes of roses perfume makes this a very nice toilet soap.

• • •

Home-Made Ointment

The cream from the first two milkings after a cow freshens churned into butter and a teaspoon of borax and 2 teaspoons sulphur and mixed well, makes good ointment for all sores and burns. Keep in sealed jars in a cool place.

In cases of fever or infectious diseases borax should be freely used in the room by dusting the dry powder over floors, carpets and mats. It will not injure the finest fabrics. By placing in dishes or other vehicles into which hot water should be poured it has no odor but quickly removes all odors.

Stain Removers

A lemon cut into slices and boiled with clothes keeps them white and keeps out stains.

A tablespoon of turpentine boiled with the clothes will make them snowy white.

To remove an iodine stain from cotton or linen, cover with a soft paste of mustard mixed with water and let stand for a few hours. Every trace of iodine will be removed.

SCIENCE has proved there are certain food elements everyone needs for health. If there aren't enough of them in a child's food, serious things can happen—such as stunted growth, soft bones, poor teeth, faulty nerves, loss of appetite, defective eyesight.

Ovaltine supplements the diet with elements frequently deficient in ordinary foods. Three servings of Ovaltine furnish a significant portion of a child's daily requirements of Vitamins A, B_1, C, D, Riboflavin (B_2), and Niacin and Minerals Calcium, Phosphorus and Iron.

In addition it provides the basic food substances—complete proteins to build muscle, nerve and body cells —high-energy foods for vitality and endurance. It thus acts as an insurance against food deficiencies that retard normal growth.

So if your child eats poorly, is thin, underpar, perhaps nervous, why not try delicious Ovaltine for normal growth and better appetite.

"A real spring tonic—cheese ball salad aspic."

Cheese Ball Salad Aspic
(Serves 6)

One envelope plain unflavored gelatine, ¼ cup cold tomato juice, 1½ cups hot tomato juice, 1 tablespoon lemon juice, ¼ teaspoon salt, ⅛ teaspoon celery salt, 1 cup cottage cheese, 2 tablespoons minced celery, 2 tablespoons chopped stuffed olives, 1 tablespoon chopped chives.

Soften gelatine in cold tomato juice and dissolve in hot tomato juice. Add lemon juice, salt, and celery salt. Cool.

Combine cottages cheese, celery, olives, and chives, and shape into balls. Pour a small amount of gelatine mixture into mold which has been rinsed in cold water.

When it begins to thicken, arrange cheese balls in mold and pour remaining gelatine mixture around them. Chill until firm.

Unmold and serve with mayonnaise on salad greens.

Scalloped Carrots
(Serves 6)

Melt 3 tablespoons bacon drippings in a saucepan; blend in 3 tablespoons flour; add 1½ cups milk, stirring until you have a smooth, thick, white sauce. Season generously with salt and pepper; add 1-3 cup grated cheese, stir until the cheese is melted.

Lightly grease a baking dish, fill it with alternate layers of sliced, cooked carrots and white sauce (until you've used 4 cups carrots). Sprinkle with ½ cup bread crumbs and 1 tablespoon minced onion.

Halve and partly fry out 6 thin slices bacon to get rid of most of their fat; lay the strips across the top of the carrot-crumb mixture. Bake in a moderate oven (350 degrees F.) about 25 minutes, until the bacon and crumbs are nicely browned.

Out of string tied around groceries you can make your own dish mops by crocheting a chain of 40, then crochet doubles in each back and forward until it is three inches wide. Then crochet a chain of 40 and put two of these in each double crochet until you are all the way across. Now wrap around stick with fringe upwards and tie well with string. Then turn downwards and tie again. This will outwear other kinds.

When making lemon pie filling, after the rind is grated and juice squeezed out, measure 2¼ cups of water and boil the rinds for a few minutes, and use this water instead of boiling water required in most recipes. You'll be surprised at the extra lemon flavor.

Add Variety to Your Breakfasts

Spring breakfast treat—bran, diced oranges, and shredded cocoanut.

Bran Ambrosia

For each serving, combine ½ cup of whole bran, 1-3 cup of diced oranges, and 3 tablespoons of shredded cocoanut. Toss lightly and serve in individual bowls, with top milk or cream poured over.

(Fresh, dried, or frozen cocoanut may be used, and little or no sugar will be needed.)

Variations on Cereal Main Dish

Combine two or three ready-to-eat cereals. Give cooked cereal a crispy topping of ready-to-eat cereal.

Add several tablespoons of honey or molasses to cereal during the cooking.

Diced fruit, maple syrup, corn syrup, molasses, honey, fruit juice preserves, and jelly are flavorful alternates for sugar.

Fill individual cereal bowls with bran flakes, top with several tablespoons of cooked strawberry and rhubarb sauce, and serve with milk. Put fresh strawberry on top.

Arrange sliced bananas in the bottom of individual cereal bowls. Fill bowls with corn flakes and wheat flakes. Top with a tablespoon of honey and serve with top milk or cream.

Bread, Rolls and Buns

Good bread flour is essential in making bread. Pastry flour differs from bread flour. It contains more starch and less protein. It is also paler in color and velvety to the touch. Yeast is another important factor in baking bread successfully. A good brand is best. Bread dough should be set in a warm place about 70 to 75 degrees F., free from drafts. If cooler than this, the yeast growth will be retarded. On the other hand if the temperature is above 90 degrees F. the conditions are favorable for the growth of the lactic acid bacteria and the bread is apt to sour.

Make Hot Dishes of Cold Cuts

Cold cuts transformed into hot main dish.

When steaks chops and other fresh meats are scarce, use cold cuts for hot dishes. You'll be surprised how good they can be.

Scalloped Potatoes with Ham Sausage

Six medium-sized potatoes, thinly sliced, 1 to 2 onions, thinly sliced, ½ lb. minced ham sausage, cut into cubes, salt, pepper, ⅛ teaspoon caraway seeds, 1 cup hot milk, 2 tablespoons butter.

Scrub raw potatoes, pare, and slice. Skin and slice the onions. Cut ham sausage into cubes.

Arrange in alternating layers in a baking dish, seasoning each layer with salt, pepper, and a few caraway seeds.

Pour hot milk over the top, then add hot water sufficient to rise just below surface of the top. Sprinkle crumbs over top.

Bake in moderate oven (350 degrees F.) at least one hour, until potatoes are tender.

Bologna Creole

One or 2-lb. piece of bologna sausage.

Sauce: Three or 4 fresh tomatoes, ¼ cup water, ½ teaspoon garlic salt, 1 bay leaf, crushed, dash red pepper, ⅛ teaspoon thyme and basil, mixed, 2 tablespoons butter, 1 onion, finely minced, 1 tablespoon lemon juice or wine.

With vegetables: One-quarter lb. mushroom caps, 1 tablespoon butter 6 small cold boiled potatoes, a few green peas or green beans—optional.

Remove skin from the piece of bologna but do not slice. Turn cut side down on a baking dish. Pierce with fork, here and there, to permit sauce to penetrate the meat.

In separate saucepan, simmer together the sauce ingredients until slightly thickened. Pour over crown of meat.

Bake in moderate oven 20 minutes. Saute the mushrooms in tablespoon of butter. Arrange around meat, along with potatoes, peeled, peas, or beans.

Continue baking another 15 to 20 minutes until well heated, then garnish with watercress.

Fish Roe Eases Meat Shortage

De luxe dinner—broiled boned shad and roe

Fish roe is a food delicacy of high nutritive value. It helps the menu-maker today, when meat is scarce. And it is available in many varieties the country over, the year round.

Broiled Boned Shad and Roe with Watercress

Five pounds shad, boned, with pair of roe, 2 cups boiling salted water, slice lemon, ½ bay leaf, crushed, 1 bunch watercress, ½ cup butter, 2 teaspoons paprika, salt, pepper, juice 2 lemons, 2 to 3 sprigs thyme, 2 to 3 small bits of tarragon leaves, 1 teaspoon minced parsley.

Shad may be boned at market. Simmer the roe gently for 5 minutes in the boiling salted water with sliced lemon and crushed bay leaf. Remove (and save the water for a cup or two of chowder or for a sauce).

Put shad on well-greased rack, skin side down, in a roasting pan. Place roe on side. Sprinkle well with the paprika; add salt and pepper. Dot with part of the butter. Broil under low heat about 8 minutes. Then transfer shad to a baking platter.

Slice the roe neatly and arrange over top; to drippings in roaster, add remaining butter, the lemon juice, and seasonings. Simmer 2 to 3 minutes and pour over shad. Bake in hot oven (400 degrees F.) 2 to 3 minutes. Remove. Garnish platter generously with watercress and serve.

Serves 8. (Note: A 5-lb. shad when boned will often weigh a little less than 3 lbs.)

Roe Scramble

Two tablespoons butter, ¼ to ½ lb. roe, 4 eggs, 1 tablespoon water (or tomato juice), dash cayenne pepper, dash powdered marjoram.

Melt butter in heavy frying pan. Add roe and saute gently over very low heat for several minutes. Beat up the eggs. Add remaining ingredients; pour over the roe. Stir over low heat, gently, until roe and eggs are scrambled together to the degree of softness desired.

Breakfast Starts Off Day Right

To keep your menfolk well and happy, you must feed them intelligently. That means you begin each morning with an adequate breakfast. To be adequate, a breakfast must consist of fruit in some form, either fresh or stewed, cut up or as juice, a cereal, either wholegrain or restored, and bread in some form, plain sliced, toast, muffins or hot bread. Give your men more if they do hard physical work, but never anything less.

If desired, batter may be prepared as directed and stored overnight.

Turn batter into pan, cover closely with damp cloth, then waxed paper; tie securely. Before baking, sprinkle with topping and allow to stand while oven is heating. Increase baking time to 30 minutes, or until done.

Bioplasm is a name given a living protoplasm, especially that which is concerned in the process of reproduction.

Make Cool Breakfast Nourishing

Summer breakfast—delicacy and substance required.

Keep cool—that's only one rule for hot weather. You must also keep yourself nourished. So begin your day with a balanced breakfast—a fruit or fruit juice, a cereal, and another dish.

Scrambled eggs garnished with thick tomato slices fried lighly constitute a delicious way in which to prepare for the work day. So, too does a fluffy omelet sprinkled with freshly-chopped parsley from the garden.

Bran muffins with newly-made strawberry preserves will give you enough zest to face a long hot day.

Three-fourths cup sifted emergency flour, 2½ teaspoons double-acting baking powder, ¼ teaspoon salt, 2 tablespoons sugar, 1 egg, well-beaten, ¾ cup milk, 3 tablespoons melted shortening, 1½ cups 40 per cent bran flakes.

These muffins may be prepared at night and baked the next morning. Prepare muffin batter as directed and turn into greased muffin pans. Wrap pans in dampened cheese cloth, then in waxed paper, and store overnight in refrigerator. Remove pans the next morning and let stand about 15 minutes, or while oven is heating. Bake as directed.

Note: Sour milk may be substituted for sweet milk; add ½ teaspoon soda and decrease baking powder to 2 teaspoons

Bran Molasses Muffins: Substitute ¼ cup molasses for sugar in above recipe; decrease milk to 2-3 cup. Combine molasses with milk before adding.

Spicy Bran Coffee Cake: Mix batter as directed and turn into greased pan, 8 x 8 x 2 inches. Mix together 4 tablespoons brown sugar, ½ teaspoon cinnamon, ¼ teaspoon nutmeg, 2 tablespoons melted butter, and ½ cup 40 percent bran flakes. For a Lenten breakfast—homemade Hot Cross Buns.

Hot Cross Buns made from refrigerator dough.
(4 to 5 dozen buns)

Two cups milk, ½ cup honey or corn syrup, ½ cup raisins, ¼ cup butter, 1 cake compressed yeast, 1 egg, well beaten, approximately 7 cups sifted flour, 2 teaspoons salt

Measure into a saucepan the milk, honey, raisins, and butter. Heat slowly to boiling; remove from heat. Cool to luke-warm; crumble compressed yeast and add. When yeast pops to surface, stir and add 3 cups of flour, salt, and egg. Beat until batter is smooth. Gradually stir in remaining flour to make soft but not sticky dough. In using new 80 percent extraction flour, follow same procedure, experimenting to see whether or not you need a little less flour to get right consistency.

Turn out on floured board and knead until dough is softly elastic, adding flour as needed for handling (but no more than necessary). Use butter to grease a bowl well and to grease the top of the dough after it is placed in the bowl. Cover with cloth; set in warm (not hot) place to rise to almost double its bulk.

When risen, cut down with a knife to permit some of gas to escape. Give the dough a few turns to re-shape into a ball. Store in the greased bowl; grease top of dough well. Cover bowl tightly.

Store in refrigerator, removing portions of dough when needed. Shape into rolls; grease each well with a little additional butter. Arrange in greased baking pan. Set to rise in warm (never hot) place to twice its bulk.

Just before baking, cut a cross in top of each. Brush with an egg or a little more butter. Bake in quick oven (375 degrees F.) 30 to 40 minutes (depending upon number baked at one time).

Remove from pan. Cool slightly. Mark cross with a water icing: 4 to 6 tablespoons confectioners' sugar, thinned with water to a paste

Many Desserts Spare Sugar

Sugar-saving sweets—gelatin desserts and prepared powdered puddings.

Today, every woman is saving sugar for the national home canning drive. The famine in other countries makes us conscience bound to save food. But the family appetite calls for some form of dessert.

There is an abundance of fresh fruit and berries to help us eat without depriving others. And there are prepared powdered puddings, sweetened and flavored with chocolate or vanilla or butterscotch to help still further. Also, there are fruit-flavored gelatins, to be used alone or in combination with fresh or canned fruit.

To the prepared puddings, add milk. Cook to the desired consistency. For even more richness and flavor, add the slightly-beaten yolk of an egg.

While still hot, turn into sherbet glass. Chill before serving, and garnish, for special occasions, with nuts, cherries, marshmallows, and whole berries.

Thrift Strawberry Ice Cream

One cup top milk, one cup finely sieved strawberries, 2 teaspoons unflavored gelatin, 6 tablespoons sugar, two tablespoons soya flour (may be added), 4 tablespoons white corn syrup, 1 tablespoon vanilla, 2 eggs.

Soak gelatin in 2 tablespoons of the top milk. Melt by setting dish in a pan of hot water. Combine sugar and strawberries. Beat egg yolks, soya flour (if used) corn syrup until thick, and lemon-colored. Add the rest of the top milk, dissolved gelatin, and vanilla. Add strawberres and sugar.

Place on bottom shelf of evaporator in refrigerator. Set control to coldest setting. Freeze until firm. Remove to chilled bowl, add unbeaten egg whites, beat until fluffy. Return to freezing compartment, continue freezing until firm.

Serves 5.

Fruit Cake

Eggless Fruit Cake

One lb. raisins, 1 lb. currants, 1 cup sugar, 2 cups cold water, 3 tbsps lard, ¾ tsp salt, 2 tsps cinnamon, peel. Mix. Boil 5 minutes, cool, add 1 tsp soda sifted with 3 cups flour. Nuts and cherries can be added. Bake one hour in a slow oven.

When making a cake, beat egg whites stiff and add just before putting cake in the oven. The cake will be finer and lighter. I also do this in puddings.

• • •

English Fruit Cake

Two cups brown sugar, 2 cups sour cream, 1 cup mixed nut meats (I use hickory nut meats) ½ glass jelly, 2 pounds raisins, 2 pounds currants, 1 pound dates, ½ pound mixed peel, 4 cups flour, 1 tbsp soda dissolved in the sour cream, 1 heaping tbsp. butter, 1 tbsp each cinnamon, cloves, mace, vanilla, tsp. salt and two eggs.

• • •

Christmas Cake

Put in a pan on the stove to boil for 10 minutes the following ingredients: 2 lbs. seedless or seeded raisins, 2 lbs. sultanas, 2 lbs. currants, 4 cups brown sugar, 4 cups hot water, ½ lb. butter, ½ lb. shortening, citron or other peel as desired. After boiling, set aside to cool.

Then add: 2 tsps. baking soda in a little water, 2 tbsp molasses. Sift together several times 6 cups flour, 2 tsps. cinnamon, 1 tsp cloves, ½ tsp. nutmeg, ½ tsp. mace, ½ lb. nutmeats (if available). I use all-purpose flour, so a little more may be needed if pastry flour is used.

This makes a three-tier cake. Bake in moderate oven about 3 hours. Fruit never falls to bottom of cake and needs no dusting with flour, only washing.

Preserve Hints

Last year I canned my peaches and used only 1 cup of sugar to 3 cups of water and they were good.

Filled Roll Is Party Pleaser

Serve this "sweatheart salad" for your Valentine luncheon or party.

Lincoln Log Roll
(Serves 6)

Two shredded wheat biscuits very finely rolled, 1 cup sifted flour, ¼ cup cocoa, 3 tablespoons sugar, ½ teaspoon salt, 7 tablespoons shortening, 3½ tablespoons water, 1 package prepared butterscotch pudding.

Mix together shredded wheat, flour, cocoa, sugar and salt; cut in shortening until as fine as meal. Add water, 1 tablespoon at a time, mixing lightly. Turn out on waxed paper; press mixture together to form dough. Roll out to ¼-inch thickness on lightly floured board; cut into 6 pieces 4 x 5 inches each.

To keep pastry rolls in shape while baking, cut 6 cardboard pieces the same size as pastry. Fasten each into a roll with pins. Roll each piece of dough up around cardboard; press edges together. Place on baking sheet; bake in hot oven (400 degrees F., 15 minutes. Cool: remove cardboard. Fill pastry with pudding, top with whipped cream and nutmeats.

Sweetheart Salad
(Serves 6)

Three tablespoons unflavored gelatine, 1 cup cold water, 1½ cups hot pineapple juice (or other frit juice), ¾ cup light cream, ¾ cup real mayonnaise, 4 slices canned pineapple or other canned fruit; 1 cup halved marashino cherries, salad greens.

Soak gelatine in cold water 5 minutes. Dissolve in hot fruit juice. Add cream. Add this mixture gradually to real mayonnaise, beatin with rotary beater until smooth. Chil until slightly thickened. Add pineapple or other fruit cut in pieces.

Surround (5-cup size) heart-shaped mold with ice cubes. Pour thin layer gelatine mixture in bottom and allow to set. Stand cherry halves around edge of mold. Pour on gelatine mixture slowly and cover cherries. Allow to set. Stand remaining cherries around edge of mold. Add remaining gelatine gently. Chill until firm.

Rub the flat side of a copper penny briskly over scorched area on woolen material and brush with whisk to remove scorch, then press carefully.

Now that linen is so scarce and we have to use cotton tea towels, if they are dried on the grass each week instead of the line, they will stay much whiter.

First, scale the fish, remove entrails and head and wash. Then place fish on its back on the table take a sharp-pointed paring knife Insert the point of the knife under the bone close to the spine, treating each bone the same way. Then take hold of the top end of the spine bone with the thumb and forefinger of the left hand and with the thumb and forefinger of the right hand work the flesh from the bone the full length of the body. When you reach the lower part of the fish continue down, turning the fish inside out till you reach the tail. Then break the bone off close to the end. Turn this part back again and insert the point of the knife under the tail bone and take it out. Do the same with the fins. Then run the fingers over the flesh to make sure the bones are all out. It may be boiled and served with parsley sauce, roasted or fried. A piece of boneless fish is a real treat. Practice makes perfect.

Simplify Ironing

It is only natural that most housewives prefer ironing big things to small ones.

Take handkerchiefs, for example. They are often accounted a nuisance to iron, especially if in quantity. This irksome task may be cut out. After the handkerchiefs are washed, press them firmly and smoothly against a tiled wall or window pain. When dry the linen looks almost as well as if it had been freshly ironed.

Instead of ironing delicate laces after washing, merely press it on a sheet of enameled tin, and do not iron at all. When dry it peels off quite easily and a brilliant and lasting glaze is imparted to it.

Doilies are handled satisfactorily in about half the time usually necessary, by pinning them into shape on a padded ironing board and letting them dry. Without unpinning, iron under a cloth previously wrung out in warm water. Naturally, when ironing lace-trimmed doilies, iron the linen parts only.

When making plain desserts with sugar-saving pudding powders, serve with fresh fruits in season, such as oranges or bananas sliced on top, or berries, either raw or cooked are nice, and a little fruit on each serving adds variety and taste to an otherwise sometimes unappetizing dish.

Health Hints
Food and Fitness

It certainly should not be necessary to remind any woman that you can eat your way to beauty but a request for a diet from a teenage friend, reminds me that it is time to remind you that "what you eat you are."

I wouldn't dream of suggesting a strict diet for a woman that is a matter for your doctor, but I would recommend to you the following six rules for your health, your figure and your looks. 1. Eat some raw fruit or vegetables every day, preferably both. 2. Choose brown bread rather than white. 3. As far as possible, avoid fried foods, rich sauces, salted, pickled and highly seasoned foods. 4. Don't drink with meals, but drink plenty of water between meals. 5. Chew your food thoroughly and eat plenty of hard food. Drink at least one pint of milk every day. 6. Take plenty of roughage, this aids elimination, such as all-bran, wholemeal, rye bread or coarse oatmeal.

It isn't always what you eat that helps you control those curves. It's what you digest. So eat slowly, and do relax while eating your meals. If you are one of those people who must have a snack between meal times then make it fruit, rather than cookies or candy. For that complexion you so ardently wish you had try starting and finishing the day with a good big glass of hot water.

Shrunken Socks Made Soft

Home-knit or factory knit. Wash, put on stretchers, and brush with a coarse brush—a wire one is best—to raise the pile like angora wool. Make a torch of brown paper and singe (like you would a chicken). Brush burnt parts off. Turn hose inside out and repeat. Give them a goodwashing and put on stretchers to dry. I have done this satisfactorily for years.

Here is the way I do my laundry. I always sort clothes the night before, soaking the dish towels and hand towels in heavy suds. In the morning I put real hot soft water in the machine. Add either finely cut bar soap or soap powder. Then I add my dish towels that have been wrung out of suds first. Let wash five minutes, then run into a tub of soft blue water, from there into a tub of hard water and they are ready for the line. Next come sheets, pillow cases, white blouses. Anything real fine I put into a pillow case and wash that way. I only wash my sheets and bath towels for two minutes as I think long washing is hard on them. I continue this way until finished. I do not let woolen articles go into the hard water, but have a pail of warm soft water for them.

Plan Traditional Wedding Buffet

Wedding buffet centerpiece—"double ring" of golden yellow daisies and sapphire blue cornflowers.

Most bridegrooms vote for a simple home wedding reception this year. But that doesn't mean sacrificing tradition. The wedding cake with punch for toasting the happy pair, the buffet table, the elegance of a damask cloth—all these beloved traditions are within the scope of a home wedding reception.

A novel flower idea, easily worked out with a minimum of flowers, is the "double ring service." For this symbolic centerpiece you need sufficient golden yellow daisies to fill two circular containers. They come in sections which can be placed together to form rings, and are made either of pottery or of glass. Carrying the symbolism a step further, you might add blue cornflowers set like deep blue sapphires in each golden "wedding ring."

Raspberry or Strawberry Sherbet in Meringue Shells (Serves 6)

One envelope plain unflavored gelatin, 1 tablespoon cold water, 3 tablespoons hot water, 1 quart box raspberries or strawberries, ¾ cup sugar, 1 cup milk, ¼ cup lemon juice, 2 egg whites.

Sprinkle berries with sugar, cover, and let stand 2 hours. Mash; squeeze through cheesecloth, adding milk and lemon juice. Soften gelatin in cold water, dissolve in hot water, and add to berry mixture.

Place in refrigerator tray and freeze to a mush. Remove from trays, beat until smooth, then fold in stiffly-beaten egg whites. Return to refrigerator tray and freeze.

Meringue shells: Four egg whites, ⅛ teaspoon salt, ½ cup sugar.

Beat egg whites until foamy. Add salt. Gradually beat in sugar. Shape rounds of meringue about 4 inches in diameter on unglazed paper on baking sheet. Build up side about 1½ inches, using pastry tube.

Bake in slow oven (275 degrees F.) about 50 minutes.

New Salad Uses Little Sugar

For the bridal buffet—pineapple and cucumber salad.

For the bridal buffet, or for any other buffet where delicacy of flavor, beauty of appearance, and no strain on sugar are important, here's a fine new suggestion.

Pineapple and Cucumber Salad
(Serves 6)

One envelope plain unflavored gelatin, ¼ cup cold water, ¾ cup hot water, 2 tablespoons sugar, 2 tablespoons cider vinegar, 2-3 cup pineapple syrup, 2 tablespoons lemon juice, ¼ teaspoon salt, 1 cup crushed pineapple pieces, 1 cup chopped cucumber.

Soften gelatin in cold water and dissolve in hot water. Add sugar, vinegar, pineapple syrup, lemon juice, and salt, and stir until dissolved. Cool, and, when nearly set stir in pineapple and cucumber. Turn into mold that has been rinsed in cold water and chill.

When firm, unmold on salad greens and garnish with mayonnaise that has been mixed with an equal amount of whipped cream. Sprinkle with chopped candied cherries or fresh strawberries.

Corn en Casserole

Two tablespoons chopped green pepper, 3 tablespoons finely chopped onion, 3 tablespoons butter or other fat, 2 tablespoons flour, 1 teaspoon salt, ⅛ teaspoon pepper, ¼ teaspoon paprika, ⅛ teaspoon dry mustard, 1¼ cups milk, 1½ cups 40 per cent bran flakes or 2 cups corn flakes, 2 cups canned whole kernel corn, drained, 1 egg, well beaten.

Place green pepper, onion, and 2 tablespoons butter or other fat in saucepan and cook gently until tender. Add flour and seasonings and stir until smooth. Add milk and cook until thickened, stirring constantly. Crush ¾ cup of the flakes; add with corn and egg to creamed mixture.

Turn into greased 1½ quart casserole or 6 greased custard cups. Melt remaining 1 tablespoon butter or other fat and pour over remaining ¾ cup flakes. Toss lightly to mix. Sprinkle over top of corn.

Bake in hot oven (400 degrees F.) 30 minutes for casserole and about 20 minutes for custard cups.

Place eggs in deep bowl, add ½ cup sugar, and beat with rotary egg beater until thick and light. Add vanilla. Add flour mixture all at once and stir in quickly but thoroughly. Turn into 15 x 10-inch pan which has been greased, lined with paper to within ½ inch of edge, and again greased. Bake in hot oven (400 degrees F.) 13 minutes or until done (Do not over-bake.)

Invert cake on cloth or linen towel which has been sprinkled lightly with powdered sugar. Remove paper; trim off crisp edges of cake. Roll cake, rolling cloth right up in cake; place on rack to cool. When cool, unroll carefully, spread with vanilla pudding, and roll again, leaving end of cake underneath. Sprinkle with powdered sugar or cover with chocolate coating.

Clothes Savers

Bring clothes in from the line immediately when they are dry. Experiment has shown that too much sunlight can be injurious to them. If you live in a manufacturing centre hang your clothes inside during the cool season. The sulphur dioxide in the smoky air combines with the cold air to form sulphuric acid when absorbed by the wet clothes. This is harmful to the fabric when it is ironed.

Valentine Buffet Colors Party

Valentine's Day buffet carries out the motif—with heart-shaped salad, heart-crowned sparking beverages and heart-shaped sandwiches.

Spread a beau-catcher buffet on Valentine's Day! Pretty, yes, but also substantial in the fare that men like.

Have plenty of cold soft drinks, interesting sandwiches and a special molded salad.

Here's a Hearts Pita-Pat salad in which gingerale is used instead of water to add piquancy. It's delicate, but substantial.

Hearts Pita-Pat (Serves 6)

Two and one-half cups gingerale (1 large or 2 small bottles), 2 tablespoons plain gelatin, 1 cup liquid from canned peas, 1 tablespoon chopped onion, 1-4 cup minced beets, 1-4 teaspoon Worcestershire sauce, 2 tablespoons lemon juice, ½cup canned peas, 1-4 pound minced bologna.

Place bottled gingerale in refrigerator to chill. Soften gelatin in ½ cup of the liquid from canned peas. Heat remaining ½ cup to boiling point; add to gelatin and stir until dissolved. Add beets, salt, Worcestershire sauce and lemon juice. Place in refrigerator to cool completely, but do not allow gelatin to set. When cold, slowly add 2½ cups of the chilled gingerale. Return to refrigerator to chill until thick and syrupy. Fold in peas and minced bologna. Fill individual heart-shaped molds or custard cups. Allow to set finally. Serve with mayonnaise.

Harlequin Filling

Two hard-cooked eggs finely chopped or riced, 2 tablespoons mayonnaise, 2 teaspoons catsup, 2 tablespoons minced green pepper, salt to taste.

Blend all ingredients together. Spread on bread.

Feather Puffs

2 cups heated milk, 4 tablespoons butter, 4 tablespoons sugar, (white), 4 cups bread flour, 1½ teaspoons salt, 1 yeast cake.

Melt butter in milk and add sugar, salt, yeast cake which has been dissolved in lukewarm water, then add eggs and flour. Let rise until very light, then stir and drop by spoonfuls into well-buttered muffin pans and let rise again until well over the pans and bake in hot oven 20 minutes. These may be reheated and are very lovely.

Icebox Cheesecake Makes Meal

For a regal dessert, make a refrigerator cheesecake.

Heres a new way to make cheesecake. And, incidentally, this dessert is rich in nutrition. It contains eggs, milk, cottage cheese and cream. So in planning your menu, allow for considerable nutrition in the cheesecake, and go a little lighter on the other courses.

Refrigerator Cheesecake
(Serves 8)

Two tablespoons granulated gelatin, ½ cup cold water, 1 teaspoon salt, ½ cup sugar, 1 tablespoon cornstarch, ½ cup milk, 2 egg yokes slightly beaten, 2 cups cottage cheese, 1 tablespoon grated lemon rind, ¼ cup lemon juice, 1 teaspoon vanilla extract, 2 stiffly beaten egg whites, 1 cup heavy whipped cream, zwieback crust, ¼ cup broken nut meats.

Soften gelatin in cold water about five minutes. Combine salt, sugar and cornstarch and add to milk in top of double boiler and stir until sugar is dissolved. Add egg yokes to milk mixture. Cook in double boiler, stirring constantly, until mixture thickens. Remove from heat, add gelatin mixture and set aside to cool. Add cheese, which has been put through a sieve, lemon rind and juice, and vanila extract. Fold in stiffly beaten egg whites and whipped cream. Pour into heat resistant glass cake dish lined with 2-3 of zwieback crust, then sprinkle top of cake with remaining crust and nut meats. Chill.

Perfect Easter dessert—Jelly Roll-A-Round with lemon cream filling.

Jelly Roll-A-Round
(Serves 10-12

Jelly Roll (Homemade); Four eggs, ¾ cup sugar, ¾ cup flour, ¾ teaspoon baking powder, ¼ teaspoon salt, 1 teaspoon vanilla, 1 cup currant, grape, raspberry, loganberry, blackberry, or elderberry jelly.

Place eggs in a bowl and set it over hot water in the bottom of the double boiler. Beat eggs until thick and lemon colored, adding sugar gradually. Remove bowl from hot water.

Sift remaining dry ingredients together and fold into egg mixture. Add vanilla.

Line a greased pan (about 8" x 12" x 1") with greased paper and turn jelly roll batter into it. Bake at 400 degrees F. for 10 minutes.

Turn onto cloth dusted with powdered sugar, trim crisp edges, spread with jelly and roll up.

Let stand for 2 hours before using in jelly roll-a-round.

Lemon Cream Filling: One jelly roll, 2 tablespoons gelatin, ½ cup cold water, 1 2-3 cups evaporated milk, 4 eggs, 1 cup sugar, ½ cup lemon juice, grated rind of 1 lemon ½ cup orange juice.

Slice jelly roll in ½-inch slices and place around the sides of a spring form pan or an angel food cake pan. Soak gelatin in water. Scald milk.

Beat egg yolks, salt, and 2-3 cup of sugar together. Add milk mixture, then return to stove and cook, stirring constantly, until mixture coats the spoon.

Add gelatin and stir until dissolved. Add fruit juices and lemon rind. Place in refrigerator.

Beat egg whites slightly, add sugar until stiff. Fold into thickened custard mixture.

Pour half of the custard filling into the mold, then place a layer of jelly roll slices over it. Add rest of custard, chill, and unmold.

Garnish with whipped cream topped with bits of jelly.

Candied Dill Pickles

Quarter the dill pickles lengthwise, wash in cold water and drain. Make a syrup of two cups of white sugar and one cup cider vinegar. One tablespoon mixed pickling spices. Pour the boiling syrup over dill pickles, let stand overnight and in the morning drain off the syrup and reheat it, and pour over pickles again. Repeat third time and, when cold, you have the snappiest, sweetest dill pickles you have ever eaten. For storage it's best to drain out spices. Three cups of syrup covers a one half quart jar of sliced cucumbers.

Sugar Savers

When fixing mince meat for pies add some of the juice off nine-day pickles. I use a lot of sugar substitute for pies. I prefer the liquid which I dilute with water. That way the substitute goes all over the pies and not too much sweetness in one spot. I usually use half sugar also.

RED CABBAGE
(Belgian Style)

Slice or shred a head of red cabbage as for cooking. Melt 3 or 4 tbsps. lard or shortening in a kettle. When fat is very hot put cabbage in kettle; add pepper and salt, slice 2 large onions and add to cabbage; also add 2 or 3 large apples, chopped. Let cabbage, etc., simmer for about 20 minutes, stirring frequently. Then add 3 or 4 tbsps. brown sugar and ½ cup vinegar. Cover and let cook slowly for an hour or until all is well cooked and soft. More apples and onions may be added to suit the taste. This burns very easily, so must be carefully watched and stirred often.

Fish-Stuffed Squash

Three pepper or acorn, squash, salt, 1½ cups cooked, flaked fresh or smoked fish, 2 cups medium cream sauce, ¼ cup grated cheese or buttered crumbs

Wash squash and bake until almost tender. Cut in halves, remove seeds and salt lightly. Combine fish and cream sauce and fill centres of squash. Top with cheese or bread crumbs. Return to oven until squash is tender and topping browned. Six servings.

• • •

Supper Casserole
(Serves Six)

Three cups peeled squash, cut in ½-inch slices, 1 cup sliced green pepper (about 2 peppers), ¼ cup sliced onion (1 medium), 1 tsp. salt, ⅛ tsp. pepper, three hard-cooked eggs, 1½ cups medium cream sauce, ½ cup bread crumbs, 2 tbsps. fat.

Arrange squash, pepper and onion in alternative layers in a greased casserole, sprinkling each layer with salt and pepper. Top with sliced eggs, cover with sauce, sprinkle with bread crumbs and dot with fat. Cover and bake in moderate oven, 350 degrees F., about 35 minutes. Remove cover and continue baking until crumbs are brown and vegetables tender — about 10 minutes.

• • •

Canned Corn

Can the corn the same day as gathered from the field if possible. Remove husks and all the silk. Plunge ears into boiling water and let remain from 5 to 10 minutes according to ripeness of corn. Then remove and plunge into cold water and take out at once. This is called blanching the corn and kills all spores that may be on the corn, thus preventing fermentations.

Blanche about 10 ears at a time, enough to fill a one-quart jar. Cut the corn from the ears and pack into sealers that have been scalded and tested for sealing qualities. Pack Firmly and add 1 teaspoon salt to each jar, then add all the boiling water the jar will hold. It will not be much more than a tablespoon if the corn has been well pressed. As each jar is filled put on rubber and screw top on tight, loosen slightly so the milk of the corn is not exposed to the air. Fill enough jars for boiler or canner. Put in warm water till it comes to the zinc tops. Boil for three hours. Add boiling water if needed. Allow to cool slightly then tighten all tops. Store in a cool dry place.

To use just add milk and heat. We like it thickened a bit and drop in a piece of butter.

• • •

Cold Storage

Both strawberries and raspberries are better stored in jars than in cardboard cartoons. I mixed a little sugar with the berries and put them in the jars and they are nice. This is better than adding sugar little by little in the jars. Rhubarb is also very satisfacory and makes grand pies and sauce. We also enjoy corn on the cob, which we find is firmer and a better flavor if the frozen corn is put in a kettle of cold water and brought to a boil.

When canning peaches, if they are a bit green and hard to pit, pit before peeling by cutting around in the the groove in the peach. Then grasp firmly between thumb and ball of hands and twist apart. Easy to pit now and easier to hold the half peach to peel.

Four medium sized peppers, 1 cup soft bread crumbs, 1 tablespoon melted butter, ¾ cup cooked rice, ¾ cup ground peanuts, 1 teaspoon salt, ½ cup canned tomatoes, 1 tablespoon catsup or chili sauce, ½ cup (¼ pound) grated yellow cheese, 3 tablespoon buttered soft bread crumbs.

Remove the top and seeds from the peppers and parboil the peppers and tops in boiling salted water 5 minutes. Drain and cool. Mix the bread crumbs, fat, cooked rice, nuts, salt, canned tomatoes, catsup, cheese and usable part of top of pepper cut into small pieces. Fill the peppers and sprinkle buttered crumbs over the top. Place the peppers in a pan and surround with water to a depth of ½ inch. Bake in moderate oven (350 degrees F.) ... 1 hour.

"Creamy oyster stew—a family favorite."

OYSTER STEW
(Serves 6)

One pint oysters, 2 tablespoons butter, 1 quart milk, ½ cup light cream, salt and pepper, 1 teaspoon Worcestershire sauce, dash nutmeg.

Cook oysters over low heat in the butter until edges curl. Add heated milk, cream, salt, pepper, Worcestershire sauce, and dash of nutmeg after serving.

FISH CHOWDER
(Serves 8)

Three pounds haddock or cod, 8 potatoes, sliced, 3 medium-sized onions, 3 slices salt pork, cubed, 8 soda crackers in salted water, 1 quart milk, 1 pint cream, 1 tablespoon butter, salt, cayenne pepper.

Simmer fish until cooked through. Remove from water. Separate the flaky meat from the skin and bones.

In the meantime, cook potatoes and onions in fish water until soft. Fry salt pork until crisp. Add with fish to chowder. Add butter, salt and pepper. (Butter may replace salt pork, if necessary.)

Freshened salt fish may take place of fresh fish.

Candy

HINTS FOR CANDY MAKING

A perfectly smooth saucepan should be used — a large one in which candy may boil up. Creamy candy should be cooked without stirring after the sugar is dissolved. To prevent creamy candy from becoming sugary allow it to cool before beating. Taffies and brittles should be stirred only enough to keep the candy from burning.

Always heat nuts before using to give them a sweet flavor. Break nuts for candy instead of chopping them.

To keep fudge for any length of time put in tightly covered pan.

If you have not a thermometer put mixture of the candy in cold water and test as follows.

Soft ball	236 to 240 deg. F.
Firm ball	242 to 248 deg. F.
Hard Ball	250 to 265 deg. F.
Brittle	270 to 290 deg. F.
Very brittle	295 to 310 deg. F.

* * *

Chocolate Fudge

Two cups sugar, 1 cup milk, 2 squares chocolate, 2 tbsps butter, 1 tsp. vanilla.

Put the milk on to cook, let come to boil, add chocolate. Boil until a soft ball forms in cold water (236 deg.). Add the butter, let it melt and blend thoroughly with the mixture. Remove from the heat and set aside to cool. When cool add vanilla, beat until thick, pour in a greased pan and cut in squares.

* * *

Maple Sugar

Three lbs. brown sugar, ¾ pint sweet milk, ¼ lb. shelled almonds, vanilla, 1 tbsp. butter.

Boil butter, sugar and milk until it forms a soft ball in cold water. Add vanilla and blanched almonds. Beat until it thickens. Pour in buttered tins, cut in squares.

* * *

Mexican Kisses

Three cups light brown sugar, 1 tsp. vanilla, 1 cup milk, 1 cup pecans, 1 tbsp. butter, ⅛ tsp. salt.

Blend sugar and milk, let come to boil. Add butter, cook 5 minutes, do not stir. Remove from fire. Beat thoroughly. Add nuts, vanilla. Drop from tsp. on waxed paper. If mixture hardens set pan in hot water.

* * *

Sour Cream Fudge

Two cups sugar, 6 tbsps. cocoa, 4 tbsps corn syrup, 1 tsp vanilla, 1 cup sour cream, pinch salt.

Boil sugar, syrup and cream, adding cocoa dissolved in hot water. Cook to soft ball stage. Cool. Add vanilla, beat until creamy. Pour into buttered pans. Cut into squares.

* * *

Marshmallow

Two tbsps. gelatine soaked in 6 tbsps. water. Dissolve 2 cups granulated sugar in 4 tbsps. hot water. Let syrup boil until a little hard when dropped in cold water. Take off and pour over dissolved gelatine and beat for 20 minutes. Add tsp. vanilla and put into buttered pan with cornstarch very thick on bottom. When firm enough cut in squares and roll in powdered sugar.

* * *

Butterscotch

Two cups sugar, ½ cup butter, 1 cup cold water, 1 tsp. cream of tartar.

Put sugar and water and butter together. When butter is melted, add cream of tartar. Boil until fairly stiff. Pour into well buttered pans.

* * *

Perfect Fudge

One and a half cups white sugar, 1½ cups brown sugar, ½ cup milk, ½ cup butter, 2 tbsps. corn syrup, pinch of salt.

Boil 2½ minutes. Add 2 tsps. cocoa. Boil 5 minutes longer. (Be sure about the timing.) Set aside a few minutes until the boiling heat is off. Then beat until creamy. Add vanilla and nuts if desired.

* * *

Walnut Mints

One-half cup sweetened condensed milk, walnut halves, 1¼ cups sifted confectioners sugar, ⅛ tsp. peppermint extract.

Add milk to sugar, mix thoroughly. Add peppermint extract, beat until smooth. Form into balls, press into shape. Decorate with walnut meats.

Cream Candy

Two cups granulated sugar, 1 cup boiling water, 2 tsps. vinegar, dissolve, then boil until it will form a soft ball. When nearly through boiling add a piece of butter size of a large walnut, remove from stove, let stand till lukewarm, beat until it creams. Last of all add flavoring. One half cup of coconut beat into it is grand. Do not stir candy after it begins to boil.

* * *

Divinity Fudge

Five cups of white sugar, three cups of corn syrup (white), one cup hot water. Boil until it forms a soft ball when dropped in cold water. Then pour half the mixture over the stiffly beaten whites of four eggs and continue beating. Let the rest of the syrup boil until it forms a very hard ball when dropped in cold water. Pour over first mixture and add nuts, and beat as for fudge. Drop from a spoon on waxed paper and let cool.

* * *

Marshmallows

Two tbsps. gelatine soaked in 6 tbsps. water. Dissolve 2 cups granulated sugar in 4 cups of hot water. Let syrup boil until a little hardens when dropped in cold water. Take off heat and pour over dissolved gelatine and beat for 20 minutes. Add one tsp. of vanilla and pour into buttered pan with cornstarch sprinkled thickly on the bottom. When firm enough cut in squares and roll in powdered sugar.

* * *

Fondant

Three cups granulated sugar, 3 tbsps. white corn syrup, 1 cup water.

Boil until mixture threads from spoon. Place pan in cold water until syrup is lukewarm, stir until well creamed. Knead like dough. Separate into parts, use certified coloring and flavoring. Make into cream.

Summertime Hints

Here are a few pointers for those with plump legs. Always choose the darker shades in stockings and those with a dull finish. Crepe gives this effect. Don't buy small dainty looking shoes that make the legs look big by contrast. Choose a dull finished leather, suede or simulated skins, like alligator. Low cut pumps are becoming and I think the high wedge heels and platform soles also look well. Leave the shoes with the ankle ties and straps for the gal with slim legs.

Baby's Hair-Curler Preparation

Dissolve one tablespoon bicarbonate of soda in a cup of boiling water. Pour into a pint bottle and add one ounce of bay rum and four ounces of rose water. Fill up with hot water, shake and cork. Sprinkle a few drops of lotion on the child's hair twice a day. Rub it thoroughly until the hair is ruffled and fluffy, and leave like this to dry Follow up by thorough brushing. This good old-fashioned habit is very important, but a soft brush should be used first until the hair is fairly thick.

Brush the hair with an upward movement from the sides to the to the crown, and from the forehead to the cown. Always leave the hair fluffy after brushing, not sleek. if you want to achieve curls

Half the recipe may be made up at a time if desired.

* * *

Slices of lemon, skin and all, eaten with sugar or salt will kill the odor of onions on the breath.

* * *

To Curb Stammering

If you are afflicted with the "stutters" try holding a pencil between your teeth for 10 minutes at a time, at the same time continuing to speak. The pencil makes you speak more slowly which helps to correct embarrassing stuttering.

* * *

Sudsing and washing is only half the job of getting clothes clean. They need thorough rinsing as well. The soapy water has penetrated deep into the fibres of the material—as it should for thorough, good cleansing. To get it all out, and make white clothes whiter, the rinse waters must be warm enough to keep the soap dissolved, and at the same time the clothes should be "agitated" (if your washer is that type) or stirred, lifted and doused repeatedly.

Three rinsings will usually do the job well. The first one should be the same temperature as the wash water. The second and third only slightly cooler. These should be changed as soon as the water begins to get dirty or covered with soap scum. If you must limit yourself to two rinses, change the water more often and hand agitate the clothes thoroughly to make up for the third rinse they are missing.

If you have time, let your washer do the rinsing. Drain the washer. Rinse it out with hot water and fill it with fresh water the same temperature. Extract the water from the clothes in the wringer, or in the dryer, and put them back in the washer. Turn on the agitater and let it run a few minutes. Then hand rinse them in lukewarm water.

Hands Beauty

Winter winds roughen hands so here is something to keep them soft. Each time the hands are washed in warm water, apply equal parts of glycerine and lemon juice and rub in well. The skin will stay soft and supple.

Mustard rubbed on the hands will remove all smell of fish.

Keep a bottle of witch hazel on ice, then when you have time to rest, soak a piece of muslin in the cold witch hazel and wrap around your neck; the witch hazel pack tightens the skin of the throat, making it firm and lovely.

Use castor oil as natures skin rejuvenator. Patted lightly into affected areas it will gradually remove wrinkles.

The regular use of oil or vaseline on sore corns softens the hard calloused part which can be gradually pared away after bathing or soaking the feet. Of course, if corns are real bad it is better to have them removed, after which the oil treatment is helpful to prevent them getting bad again.

Puddings

Devonshire Pudding

Ingredients: 1 pint milk, 1 oz. butter, 2 eggs, 3 apples, 3 ozs. sugar, 3 ozs. bread crumbs, 2 tbsps. of apricot jam. Method: Put a layer of jam at the bottom of the dish, stew the apples with a little cinnamon, sugar and two tbsps. of water, and when cool put a layer on top of the jam. Boil the milk and butter and when boiling add the bread crumbs and simmer slowly until it thickens. Add 1 oz. sugar and the yolks of eggs, pour over the apples and bake till set. Whip the whites of eggs stiffly, fold in the sugar, pile on the top of the pudding and allow to brown gently in the oven.

• • •

Carrot Pudding

One-and-a-half cups of flour, 1 cup of brown sugar, 1 cup of suet, 1 cup of raisins, 1 cup of carrots, 1 cup of potatoes (grated), 1 cup of currants if you like, 1 tsp. soda. Steam 3 or 4 hours, very good.

• • •

Baked Date Pudding

One cup drained pineapple or Maraschino cherries, 1 cup chopped dates, 1 cup coarsely chopped walnuts, ½ cup sifted flour, 1 tsp. baking powder, ½ tsp. salt. Mix together and set aside. Three egg whites beaten stiffly, 3 egg yolks, 1 tsp. vanilla, 3-4 cup sugar. Beat together, fold in fruit, and flour mixture, fold in beaten egg whites. Bake in shallow greased pan 8" x 12" 350 dag. F. for 35 minutes. Serve with whipped cream. Serves 8 to 10.

• • •

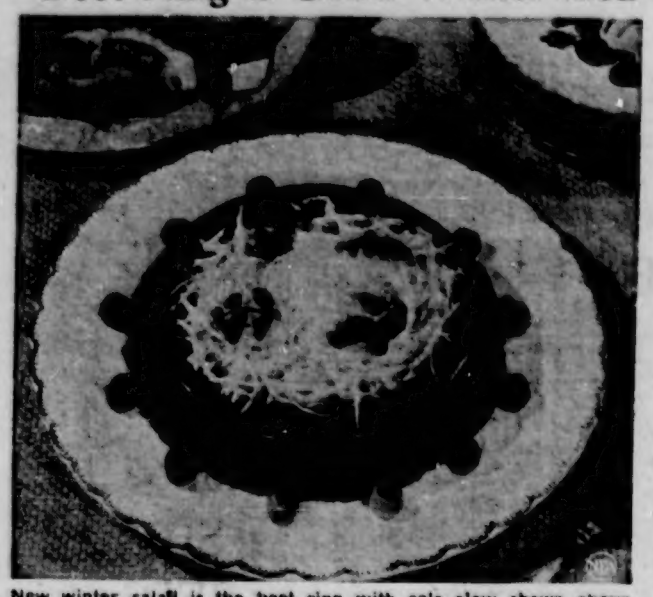
Cheap Pudding

One quart of flour, 1 cup chopped suet, 1½ tsps. baking powder, ½ lb. raisins, pinch of salt, 1 tsp. cinnamon, 1 tsp. cloves, 1 cup of sugar Mix with water or milk. Steam two hours.

• • •

If you put a ¼ tsp. sugar in with fried onions, they won't "repeat."

Beet Ring Is Good Winter Idea



New winter salad is the beet ring with cole slaw shown above. Both the color and taste of beets make them popular in winter meals. The modern way of cooking: Pare the raw beets; then, if small, cook them whole or slice them or cube them. Use just enough boiling water to be absorbed in the cooking and cook quickly until tender. More vitamins are retained.

Beets With Herb Sauce

Half dozen small beets, 2 tablespoons butter, ½ teaspoon salt, 1 tablespoon minced parsley, 1 tablespoon minced onion, dash thyme and tarragon.
